TABLE OF CONTENTS

SI-WINS main page 1 Step

STEP 1 Then you will see the main page of Solomon Islands WASH In Schools Data Explorer.

Maps page 8 Steps

STEP 2 To go to maps page, click on the Maps navigation menu

STEP 3 Then you will see the Maps page

STEP 4 To view the school details, first select the icon below (see the image) to navigate to the school's location.

STEP 5 Then, the map will zoom in and display the locations of several schools. Next, click on a school icon to view a summary of the school's information.

STEP 6 Once the school summary information appears, you can view the detailed school information by clicking the "View Details" button.

STEP 7 On the detailed school information screen, you can use the tabs to navigate and view the school's complete information.

STEP 8 For example, if you want to view the School Information, you can click on the tab, and the School Information details will be displayed.

STEP 9 If you want to exit the School Detail view, you can click the close button in the top right corner.

Data filtering 32 Steps

STEP 10 The map view will return to its original state. On this page, you can also apply data filtering.

STEP 11 Indicator Filtering

STEP 12 The Indicator Dropdown displays a list of available indicators that you can select to customize the data shown on the map.

STEP 13 The map will update to display data based on the Service Level for Hygiene indicator, visually representing the relevant information according to the selected criteria.

STEP 14 To hide the Basic level from the Service Level for Hygiene indicator, you can deselect or uncheck the Basic option in the legend. Once hidden, the map will update to display only the remaining levels: Limited and No Service.

STEP 15 To also hide the Limited level from the Service Level for Hygiene indicator, you can deselect or uncheck the Limited option in the legend. Once hidden, the map will update to display only the remaining level: No Service.

STEP 16 The map will now display data only for the No Service level under the Service Level for Hygiene indicator, as the Basic and Limited levels have been filtered out.

STEP 17 To display the Basic level again, you can click the close button on the Basic legend.

STEP 18 Likewise, to display the Limited level again, you can click the close button on the Limited legend.

STEP 19 Then, the map will display the Basic and Limited levels of the Service Level for Hygiene indicator again.

STEP 20 To display the Service Level for Drinking Water indicator data again, click on the Indicator dropdown.

STEP 21 Then, select Service Level for Drinking Water from the dropdown.

STEP 22 Then, the map will display the Service Level for Drinking Water indicator data again.

STEP 23 If you want to filter by province, you can select the Select Province dropdown.

STEP 24 For example, if you want to filter by the province Guadalcanal, select Guadalcanal from the province dropdown list.

STEP 25 Then, the data on the map will be filtered to show only the Guadalcanal province.

STEP 26 If you also want to filter by School Type, you can select the Select School Type dropdown.

STEP 27 For example, if you want to filter by Community High School type, select the Community High School option.

STEP 28 The map data will then be filtered based on the Guadalcanal province and Community High School type.

STEP 29 And if you also want to filter by school name, you can enter the school name in the Search School input field.

STEP 30 If you want to remove the School Type filter, click the dropdown symbol for School Type until the close button appears. Then, click the close button to remove the filter.

STEP 31 The same applies to removing the Province filter. Click the dropdown symbol for Province until the close button appears, then click the close button to remove the filter.

STEP 32 If you want to use the Advanced Filter, click on **Advanced Filter** to display the advanced filtering options.

STEP 33 Then, select a Question from the Question dropdown.

STEP 34 Select one Question from the Question List.

STEP 35 Once the Question is selected, you can filter the map data based on the answer to that question. For example, select "No".

STEP 36 Then, the map data will be filtered based on the "No" answer.

STEP 37 To remove the filter, click the close button on the "No" tag as shown below.

STEP 38 To close the Advanced Filter, you can click the close button or click the Advanced Filter button again.

STEP 39 Then, the map will return to its original view.

STEP 40 On the maps page, you can also export your data by clicking the "Export Filtered Data" button.

STEP 41 To navigate to the Dashboard page, click the "Dashboard" menu available in the sidebar.

Dashboard page 22 Steps

STEP 42 The Dashboard page will be displayed, showing the JMP Chart, followed by the "Bar Chart for Indicator" at the bottom section after the JMP Chart.

STEP 43 To filter by province, click the Select Province dropdown.

STEP 44 Then, the Province List will appear. For example, select Central from the list.

STEP 45 The same applies to the School Type filter. Click Select School Type to choose a specific type.

STEP 46 Then, the School Type List will appear. For example, if you want to filter by Early Childhood Education Center, select that option.

STEP 47 The data on the chart will then be filtered based on the selected Province and School Type.

STEP 48 For the Advanced Filter, the process is the same. Click the Advanced Filter button to display the Advanced Filter feature.

STEP 49 Then, select the desired Question from the Select Question dropdown, similar to how the Advanced Filter is used on the Maps page.

STEP 50 To remove the filter, hover over the dropdown symbol until the close icon appears. Then, click the close icon to clear the filter.

STEP 51 Click on close-circle

STEP 52 Then, the chart display will return to its original state before the filter was applied.

STEP 53 To display data by Province, click the Show by Province switch button.

STEP 54 Then, the chart will display data for each province as shown below.

STEP 55 To display historical data from previous monitoring rounds on the chart, click the "Show History" switch button.

STEP 56 Then, the chart will display data for each province and include historical data since both "Show by Province" and "Show History" are active.

STEP 57 To hide the data by history or by province, simply click the switch button again.

STEP 58 To hide the data by history or by province, simply click the switch button again. Click on switch

STEP 59 Then, the chart display will return to normal.

STEP 60 At the bottom section of the Dashboard page, you will find the Bar Chart for Indicator, where the data in the chart can be adjusted based on the selected question from the dropdown.

STEP 61 Click on the Question dropdown, as shown in the image, to display the Indicator Question List.

STEP 62 Select one of the questions to display the Indicator Chart based on the chosen question.

STEP 63 Then, the bar chart for the selected indicator will be displayed as shown in the image.

Database page 24 Steps

STEP 64 To navigate to the Database page, select the Database menu from the sidebar.

STEP 65 Then, the complete data will be displayed in a table format with pagination controls located at the bottom right of the table.

STEP 66 On this page, you can also apply several filters, such as Filter by Monitoring Round, Province, School Type, and Advanced Filter.

STEP 67 The new filter here is the Filter by Monitoring Round, which is used to filter data based on the selected monitoring round. Choose one monitoring round from the dropdown list to apply the filter.

STEP 68 Then, select a province from the list, for example, Central.

STEP 69 To filter by school type, select a school type from the "Select School Type" dropdown, for example, Community High School.

STEP 70 Then, the data will be displayed based on the three active filters: Monitoring Round 2024, Central Province, and Community High School type.

STEP 71 To navigate to the next page, you can use the pagination buttons located at the bottom right of the table, as shown in the image.

STEP 72 The data on the next page will be displayed as shown in the image.

STEP 73 To view the details of a specific data entry, click the plus (+) icon button on the data row, as shown in the image.

STEP 74 This will expand the selected row, displaying detailed information. In this detailed view, there is a tab menu that allows you to navigate through different groups of information, such as General Information, School Information, Water Supply Core Questions, and more.

STEP 75 To display the detailed answers for the Water Supply Core Questions, select the Water Supply Core Questions tab.

STEP 76 Then, the details of the Water Supply Core Questions will be displayed as shown in the image below.

STEP 77 Click on Water Quality to display the details of Water Quality.

STEP 78 Then, the details of Water Quality will be displayed as shown below.

STEP 79 To close the data details, click on the minus (-) button.

STEP 80 Then, the data table will return to its original view.

STEP 81 On this page, you can also export data into an Excel file. The exported data will be influenced by any filters applied to the data table.

STEP 82 After clicking "Export," a list of exported data will appear, sorted by date and displaying the details of the applied filters.

STEP 83 Click the "Download" button on the desired list to download the data in Excel format.

STEP 84 To return to the Database (Data Table) page, select the "View Data" menu from the navigation at the top left of the Export List.

STEP 85 Then, you will be redirected back to the Database page with the table view.

STEP 86 To display the export list page, select the "Export" menu located at the top left of the table.

STEP 87 Then, the export list page will be displayed as shown below.

JMP Documentation page

2 Steps

STEP 88 To display the JMP Documentation page, click on the "JMP Documentation" menu in the sidebar.

STEP 89 Then, the JMP Documentation page will be displayed in PDF format, as shown in the image.

SI-WINS main page

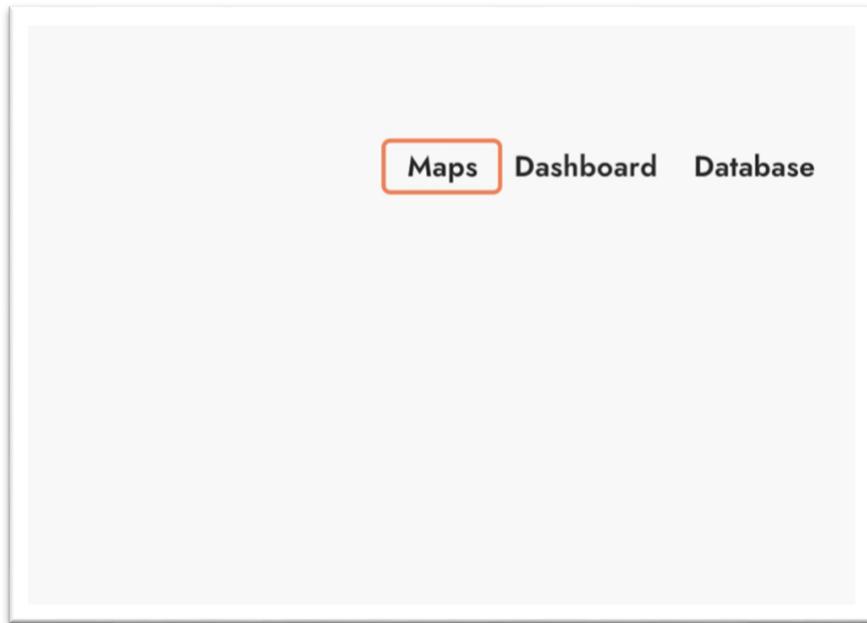

1 Step

Go to SI-WINS main page via this link: <https://si-wins.org/>

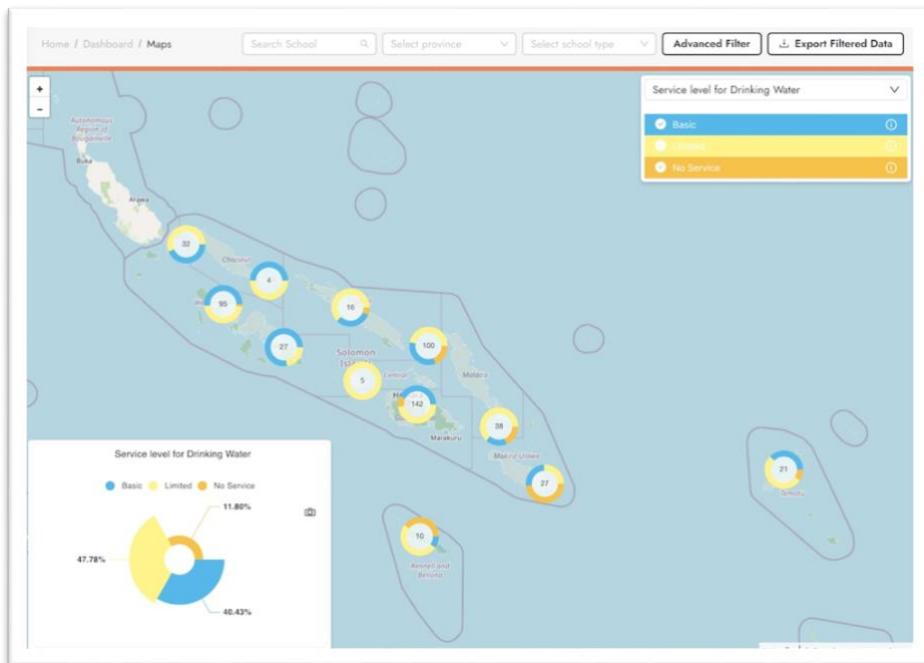

STEP 1 Then you will see the main page of Solomon Islands WASH In Schools Data Explorer.

The screenshot shows the homepage of the Solomon Islands WASH In Schools Data Explorer. At the top left is the Solomon Islands coat of arms and the text "SOLOMON ISLANDS WASH in Schools". At the top right are links for "Maps", "Dashboard", and "Database". The main title "Solomon Islands WASH In Schools Data Explorer" is prominently displayed in a large, bold font, with "WASH In Schools Data Explorer" inside a red-bordered box. Below the title is a subtitle: "Insights Into The State Of Water Sanitation And Hygiene In The Schools Of Solomon Islands". A "Explore Data" button is located at the bottom left, and a "Scroll ↓" link is at the bottom right. A smaller inset window shows a map titled "Monitoring WASH progress for 517 schools in Solomon Islands" with various school locations marked by colored circles (blue, green, yellow) and a legend for "Service level for Drinking Water" (None, Poor, Fair, Good).

STEP 2 To go to maps page, click on the Maps navigation menu

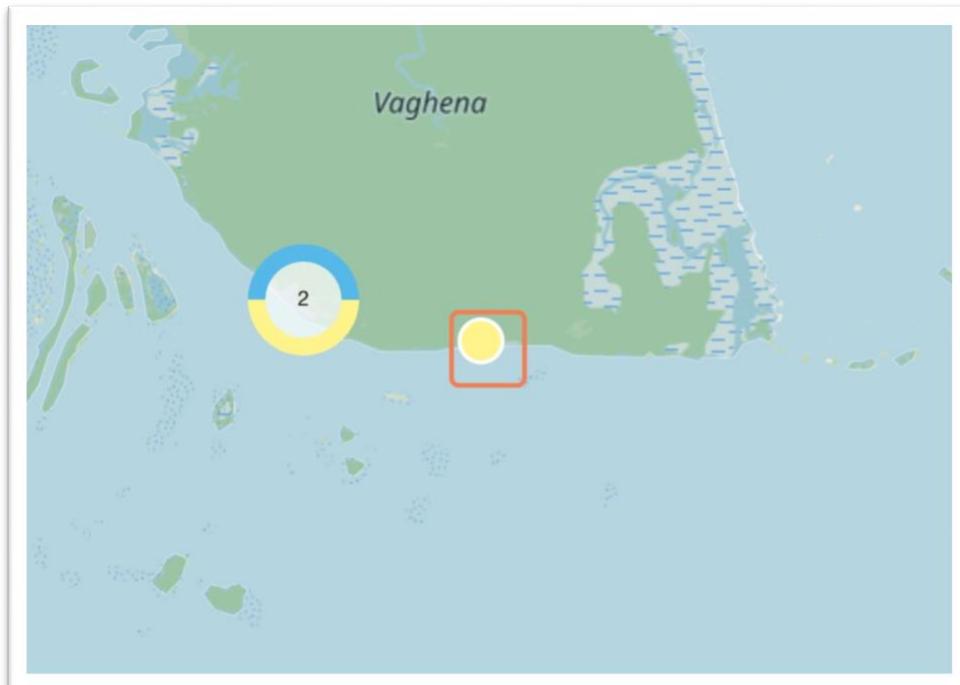

STEP 3 Then you will see the Maps page

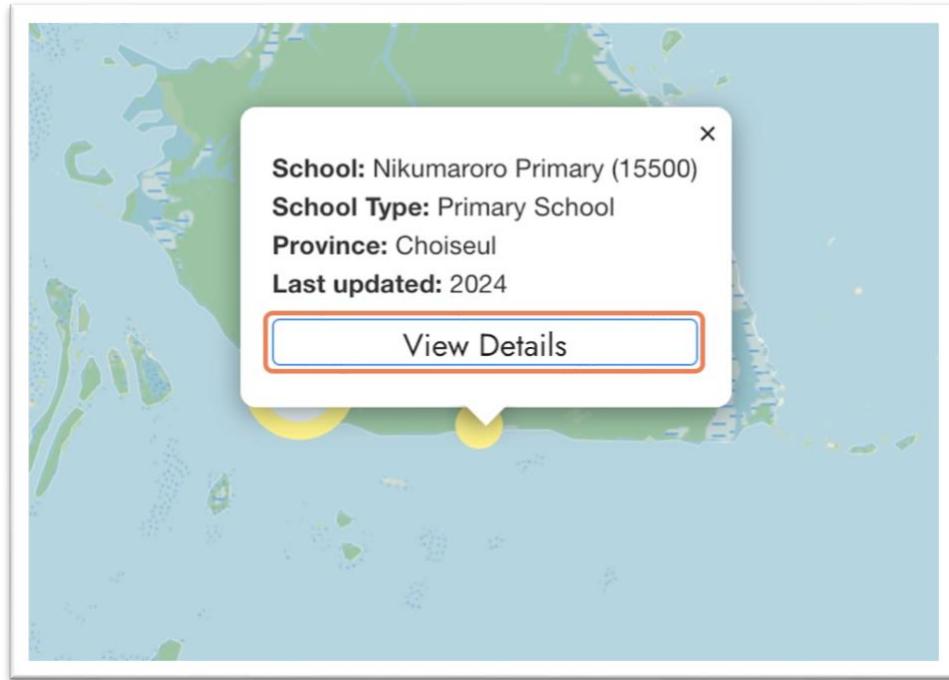

STEP 4 To view the school details, first select the icon below (see the image) to navigate to the school's location.

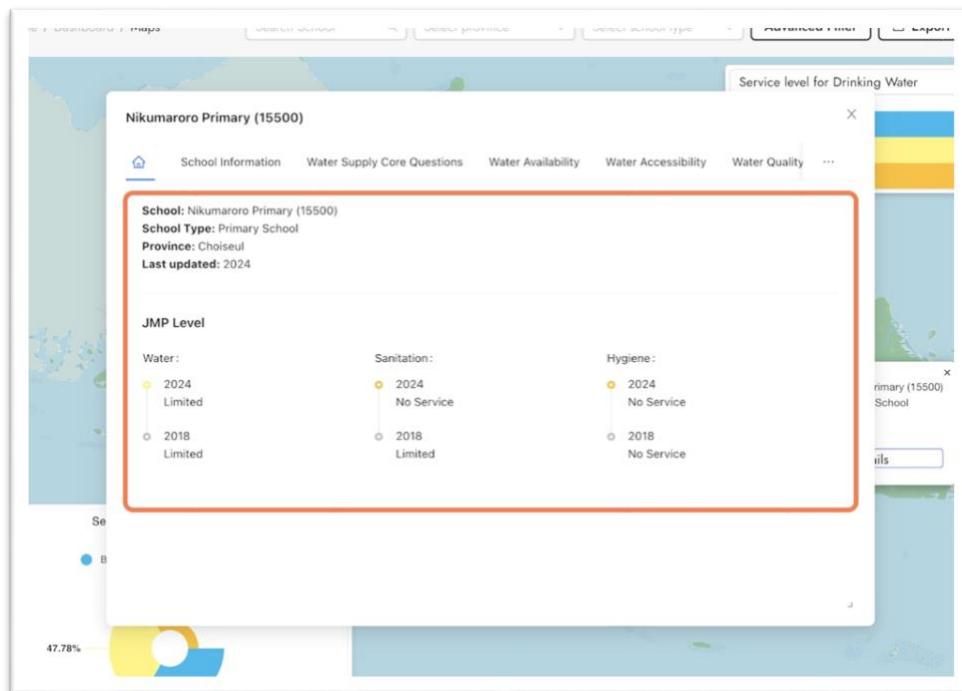

STEP 5 Then, the map will zoom in and display the locations of several schools. Next, click on a school icon to view a summary of the school's information.

STEP 6 Once the school summary information appears, you can view the detailed school information by clicking the "View Details" button.

STEP 7 On the detailed school information screen, you can use the tabs to navigate and view the school's complete information.

STEP 8 For example, if you want to view the School Information, you can click on the tab, and the School Information details will be displayed.

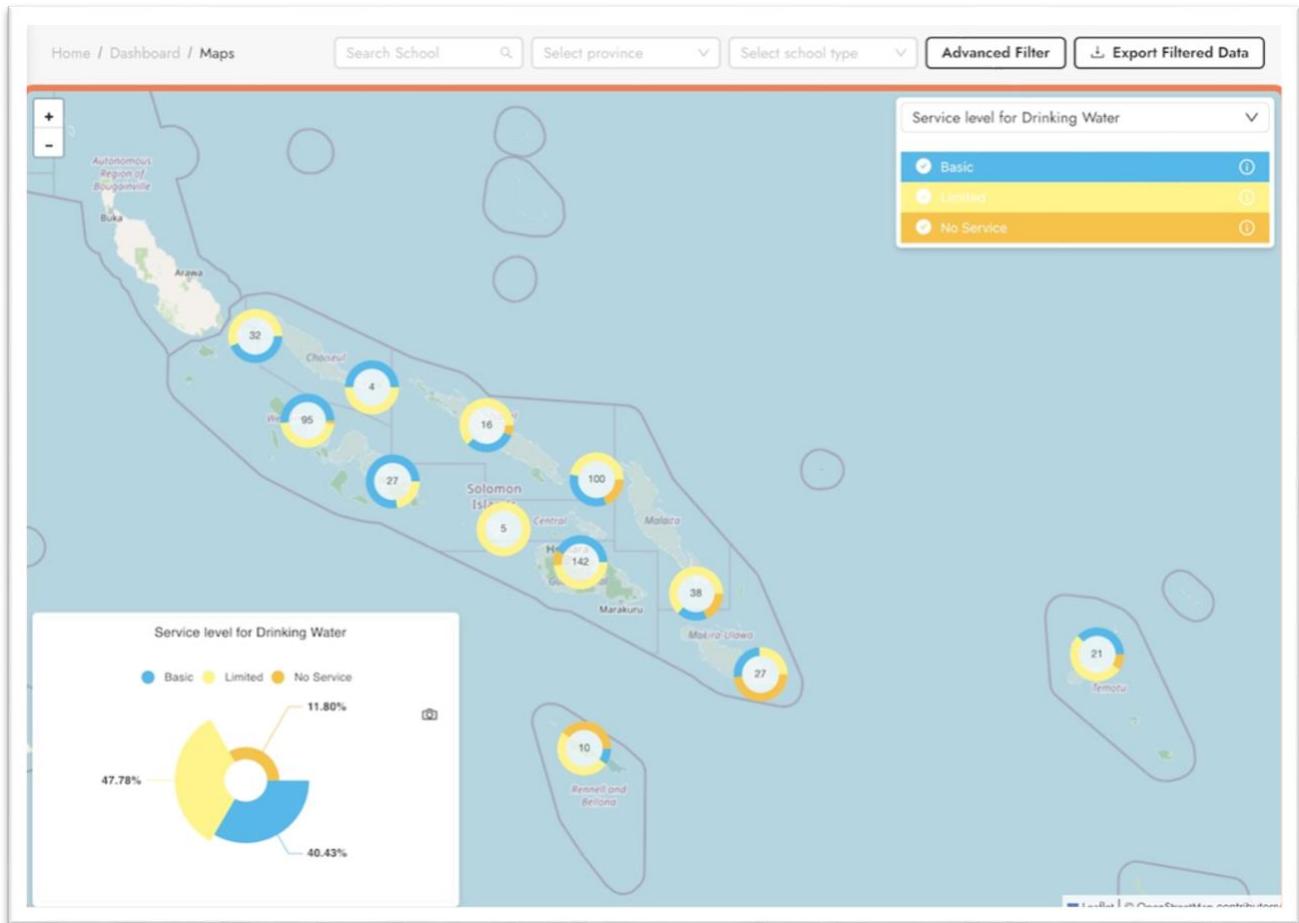

The screenshot shows a web application interface. At the top, there is a navigation bar with 'Home / Dashboard / Maps' on the left and search and selection buttons on the right. Below the navigation is a map showing a coastal area. A callout box highlights 'Nikumaroro Primary (15500)'. Below the map, there are tabs: 'Home' (selected), 'School Information' (highlighted with a red box), and 'Water Supply Core Question'. Under the 'School Information' tab, details are listed: 'School: Nikumaroro Primary (15500)', 'School Type: Primary School', 'Province: Choiseul', and 'Last updated: 2024'.

STEP 9 If you want to exit the School Detail view, you can click the close button in the top right corner.

The screenshot shows a modal window titled 'Advanced Filter' with a close button ('X') highlighted with a red box. The modal contains a dropdown menu for 'Service level for Drinking Water' with three options: 'Water Accessibility', 'Water Quality', and '...', with 'Water Accessibility' currently selected. Below the dropdown is a toggle switch labeled 'Show History'.

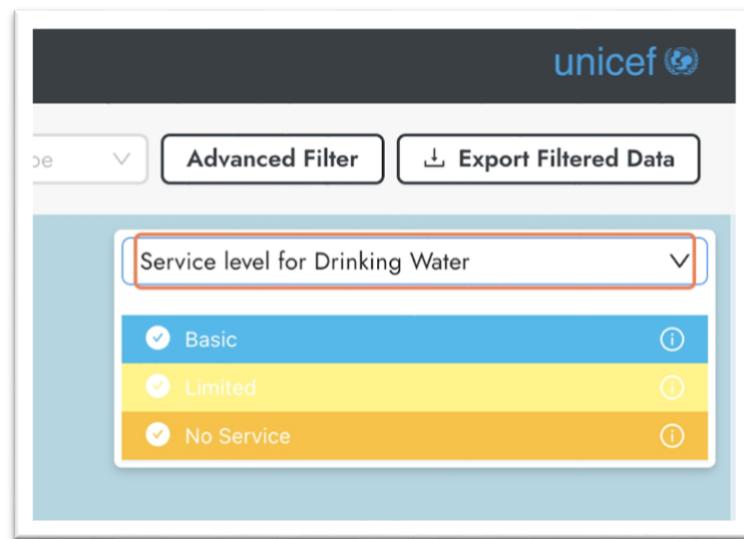

STEP 10 The map view will return to its original state. On this page, you can also apply data filtering.

The available data filtering options include: searching for a school name, filtering by Province, filtering by School Type, and using the Advanced Filter. You can also filter the indicators displayed on the map. By default, the selected indicator is the Service Level for Drinking Water. The following steps will guide you through using the filtering feature.

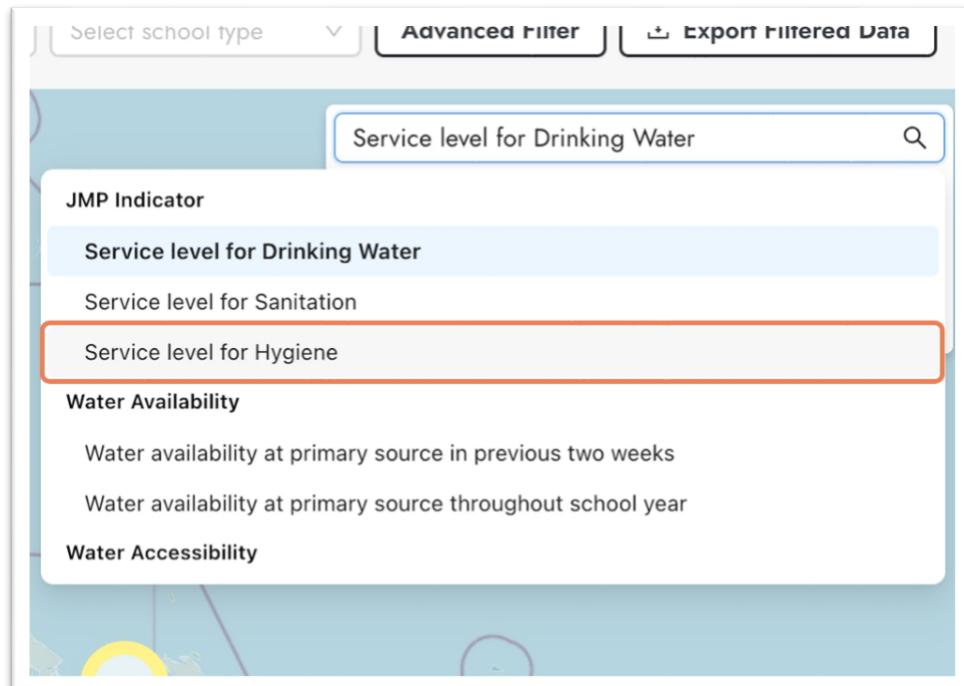

STEP 11 Indicator Filtering

You can change this by selecting a different indicator from the Indicators Dropdown. This allows you to analyze specific data points relevant to your needs.

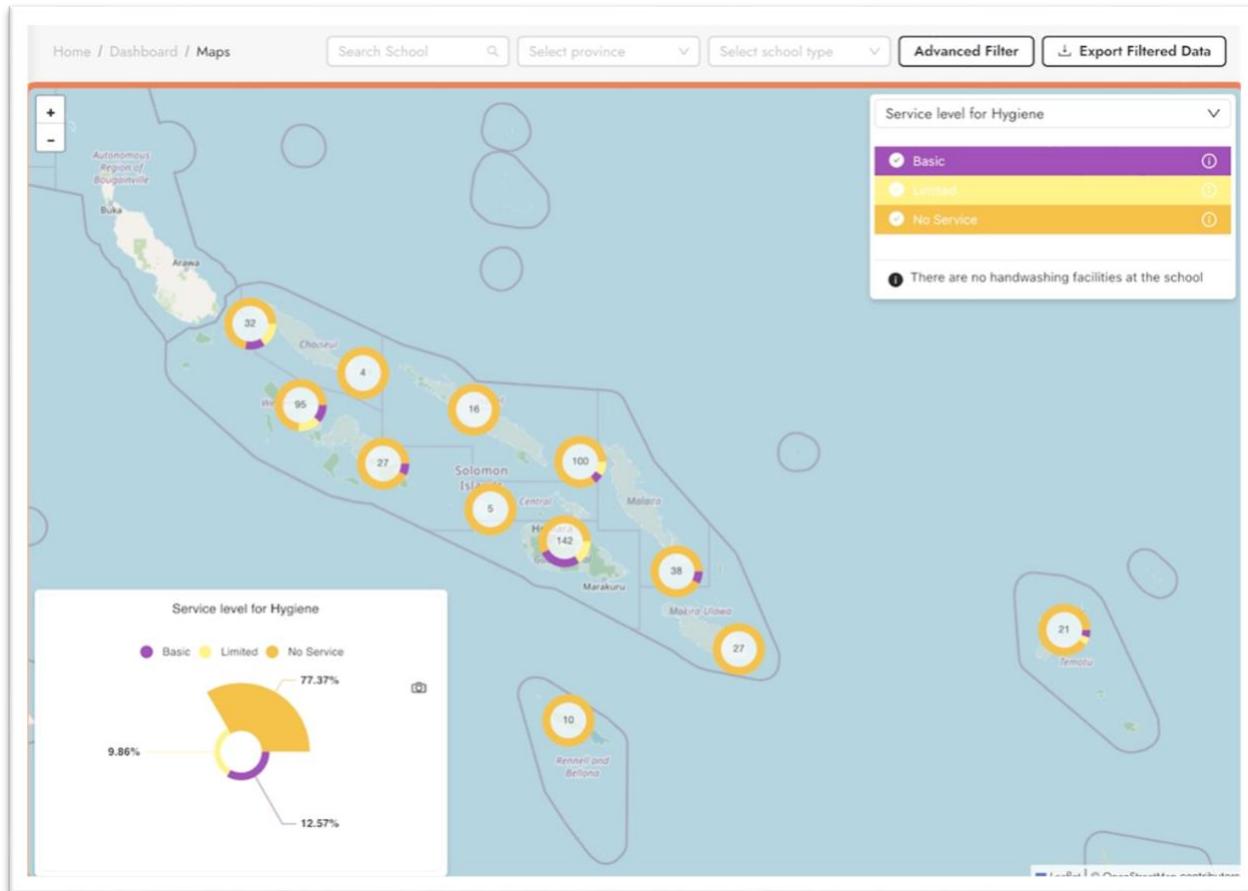

STEP 12 The Indicator Dropdown displays a list of available indicators that you can select to customize the data shown on the map.

For example, if you want to view the Service Level for Hygiene indicator, select that option from the dropdown. The map will then update to display data based on the selected indicator.

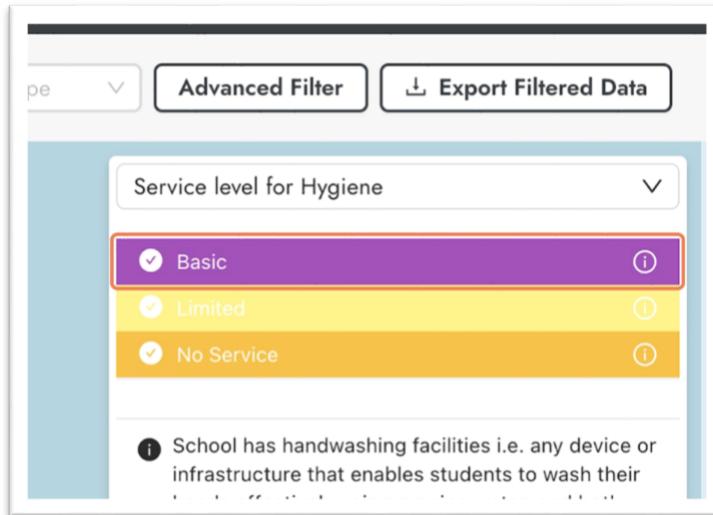

STEP 13 The map will update to display data based on the Service Level for Hygiene indicator, visually representing the relevant information according to the selected criteria.

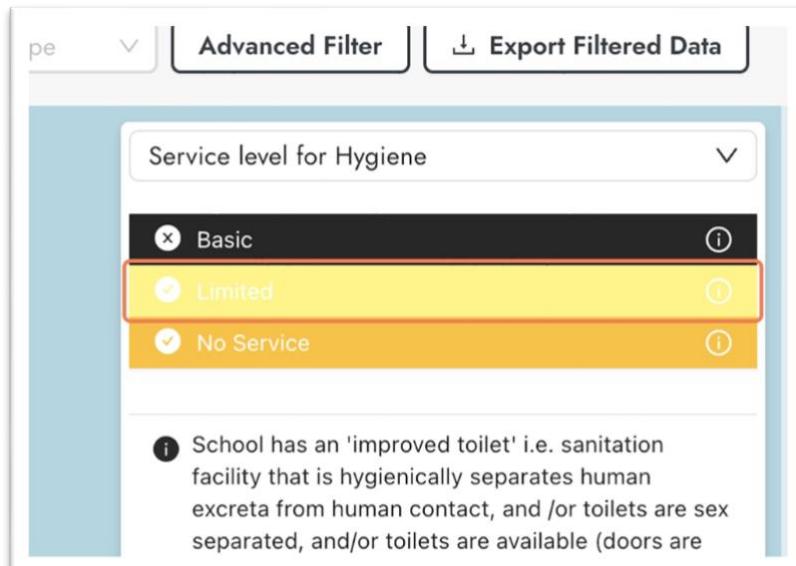

In the Service Level for Hygiene indicator, you can view three levels: Basic, Limited, and No Service. You also have the option to show or hide data for each level, as explained in the following steps.

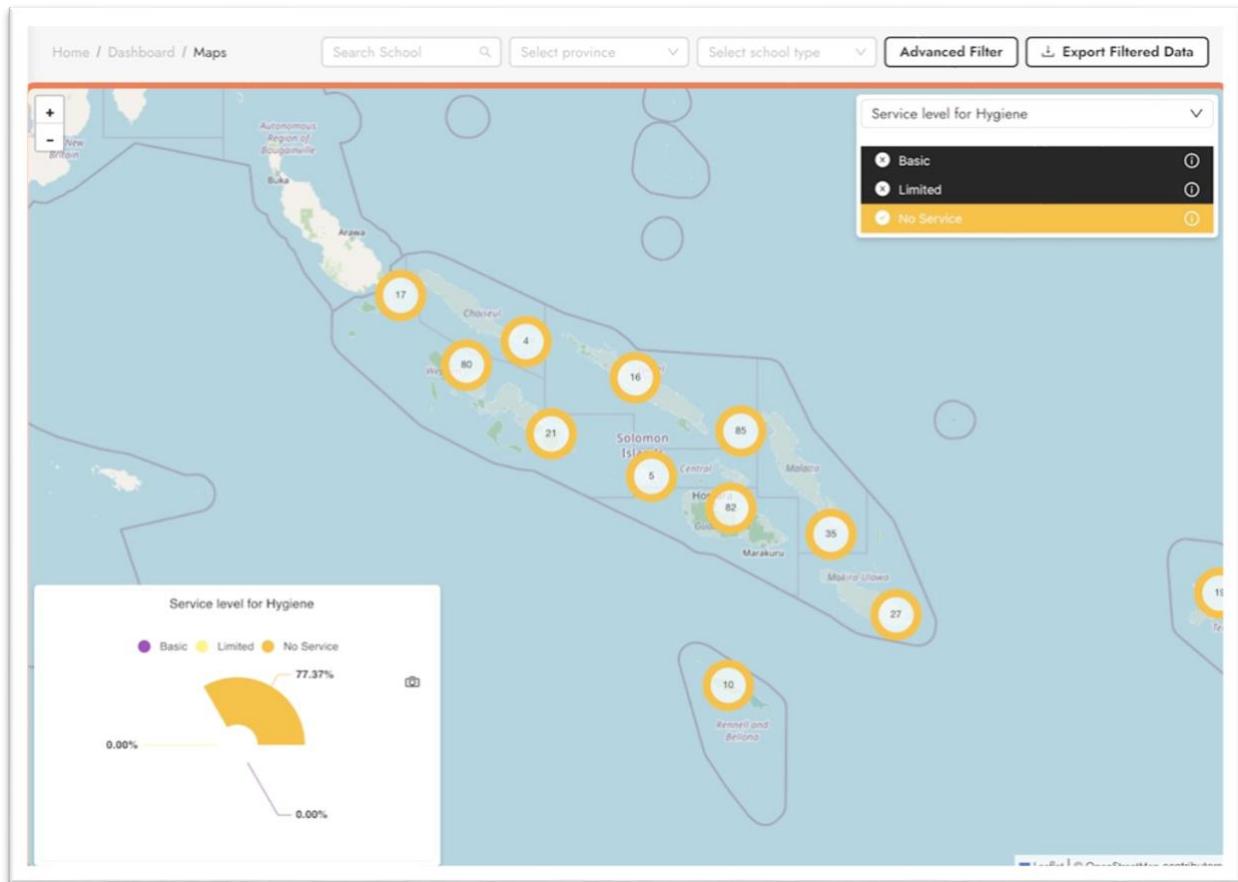

STEP 14 To hide the Basic level from the Service Level for Hygiene indicator, you can deselect or uncheck the Basic option in the legend. Once hidden, the map will update to display only the remaining levels: Limited and No Service.

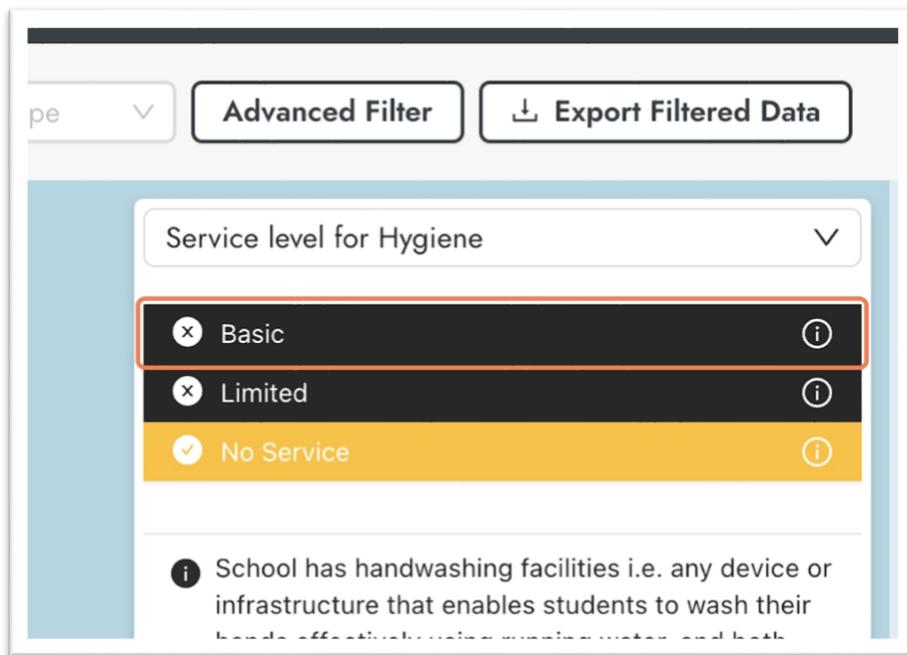

STEP 15 To also hide the Limited level from the Service Level for Hygiene indicator, you can deselect or uncheck the Limited option in the legend. Once hidden, the map will update to display only the remaining level: No Service.

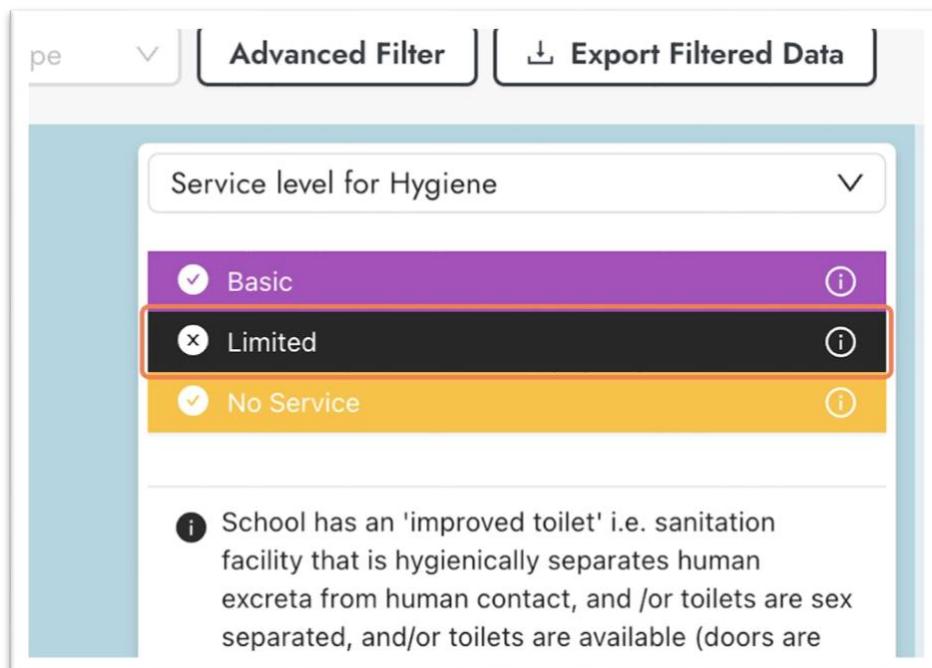

STEP 16 The map will now display data only for the No Service level under the Service Level for Hygiene indicator, as the Basic and Limited levels have been filtered out.

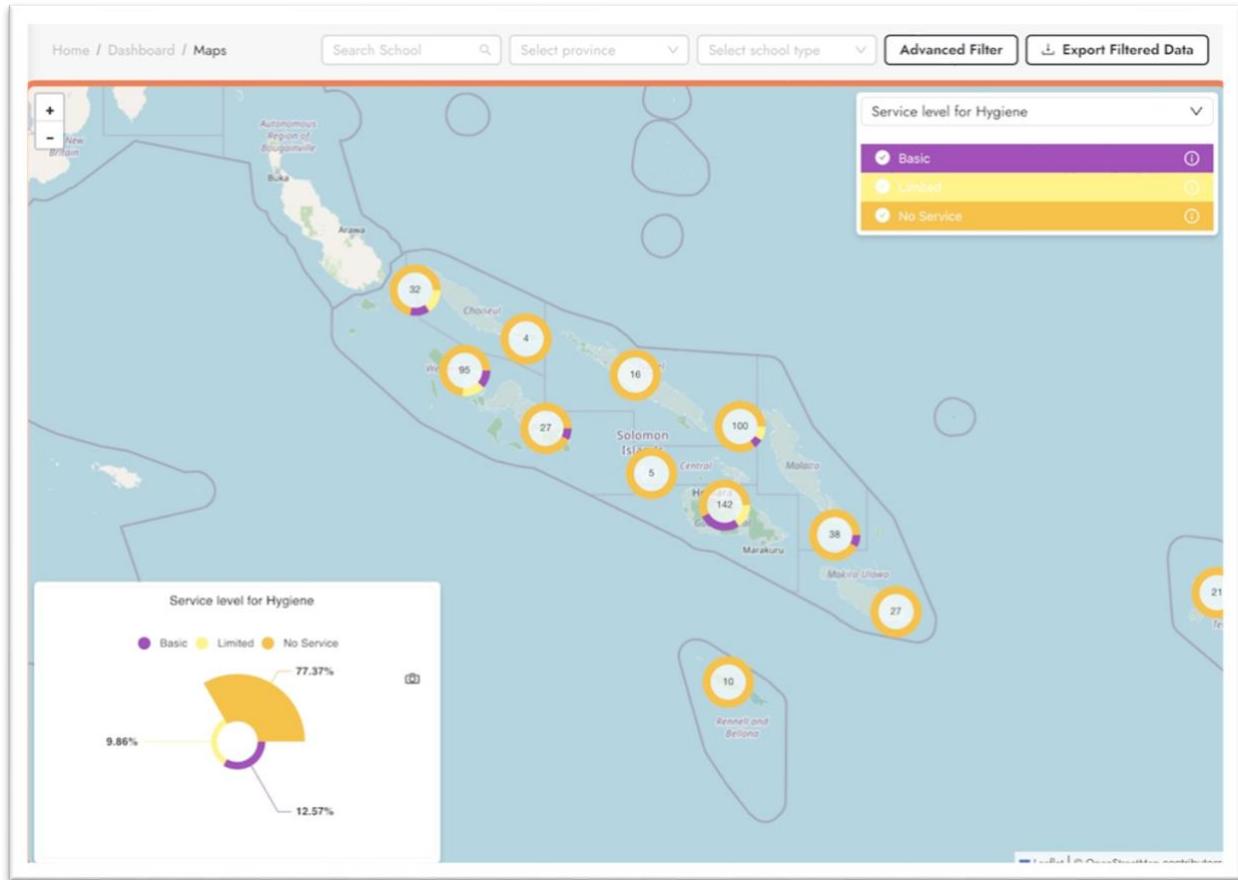

STEP 17 To display the Basic level again, you can click the close button on the Basic legend.

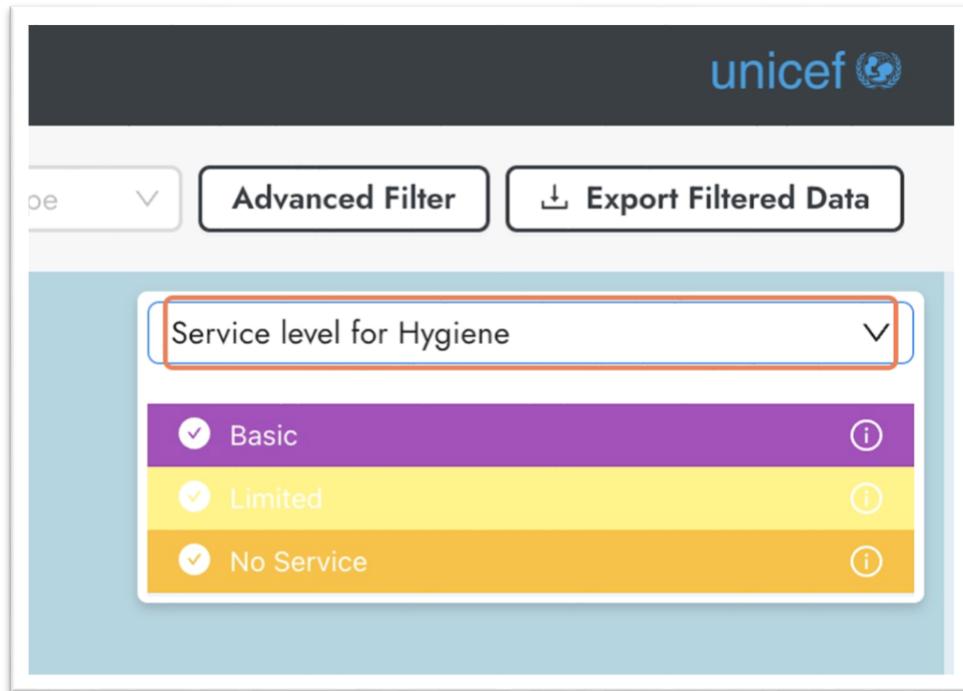

STEP 18 Likewise, to display the Limited level again, you can click the close button on the Limited legend.

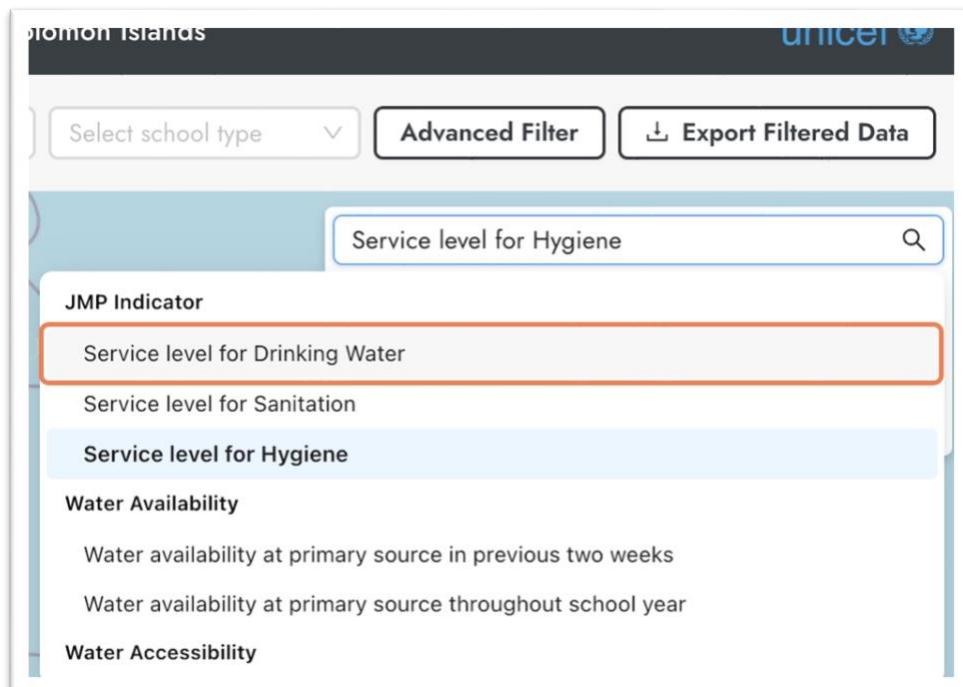

STEP 19 Then, the map will display the Basic and Limited levels of the Service Level for Hygiene indicator again.

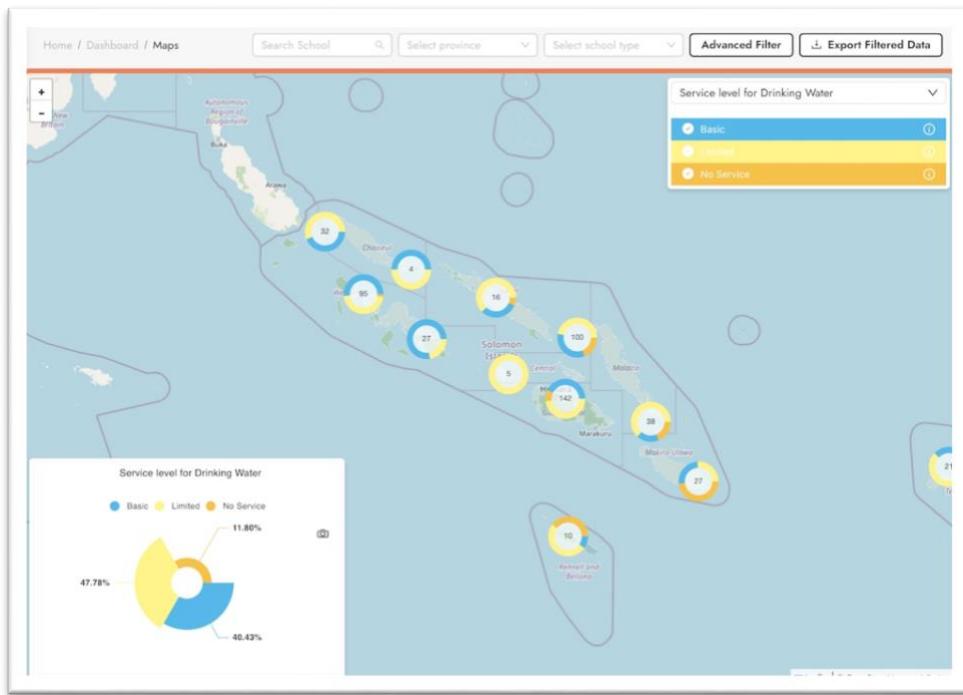

STEP 20 To display the Service Level for Drinking Water indicator data again, click on the Indicator dropdown.

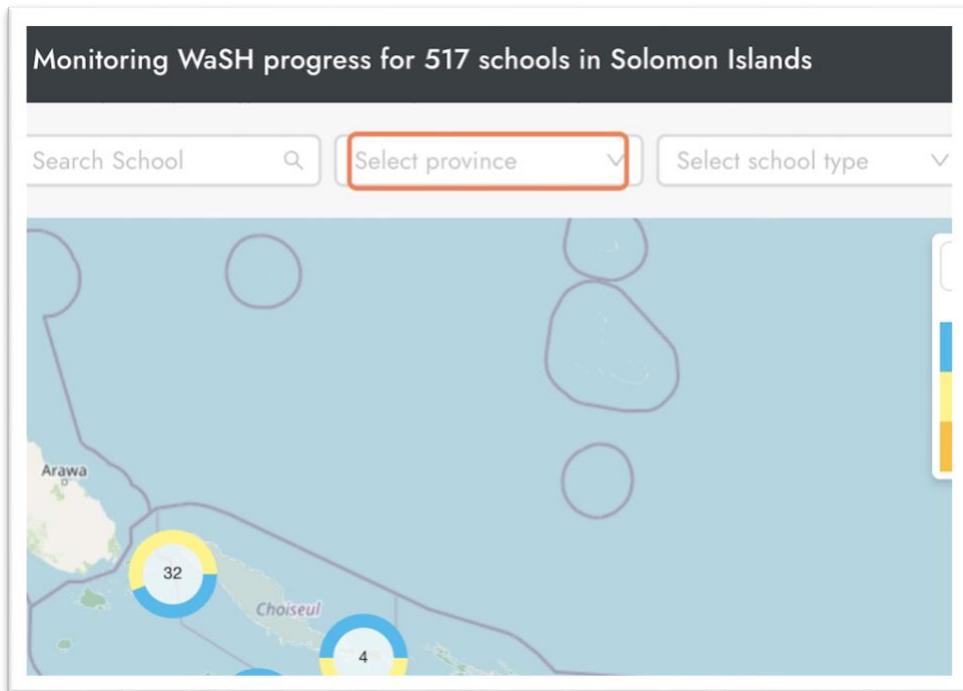

STEP 21 Then, select Service Level for Drinking Water from the dropdown.

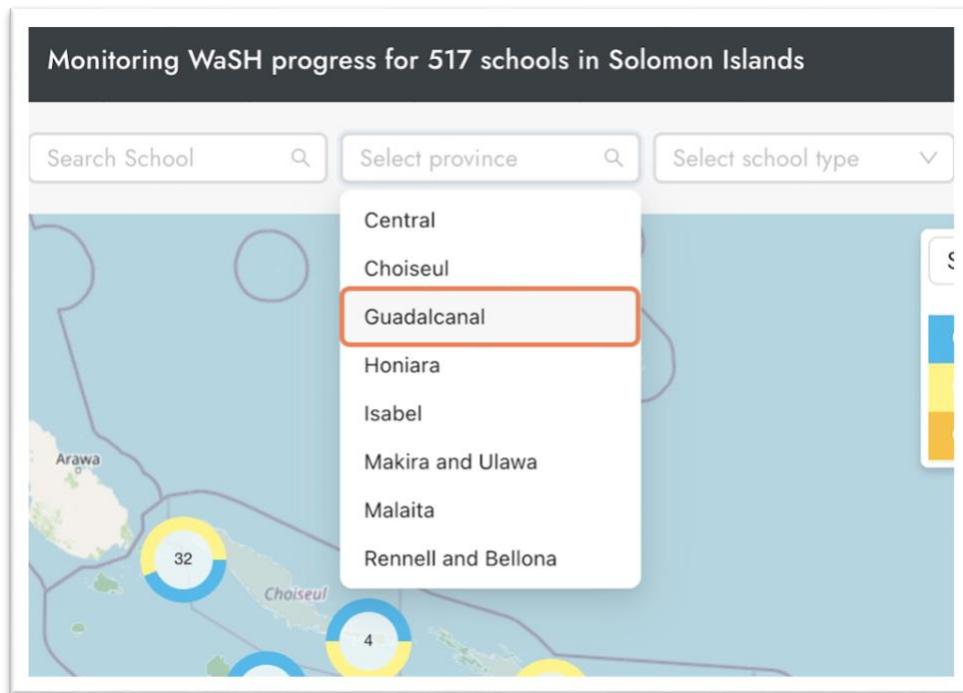

STEP 22 Then, the map will display the Service Level for Drinking Water indicator data again.

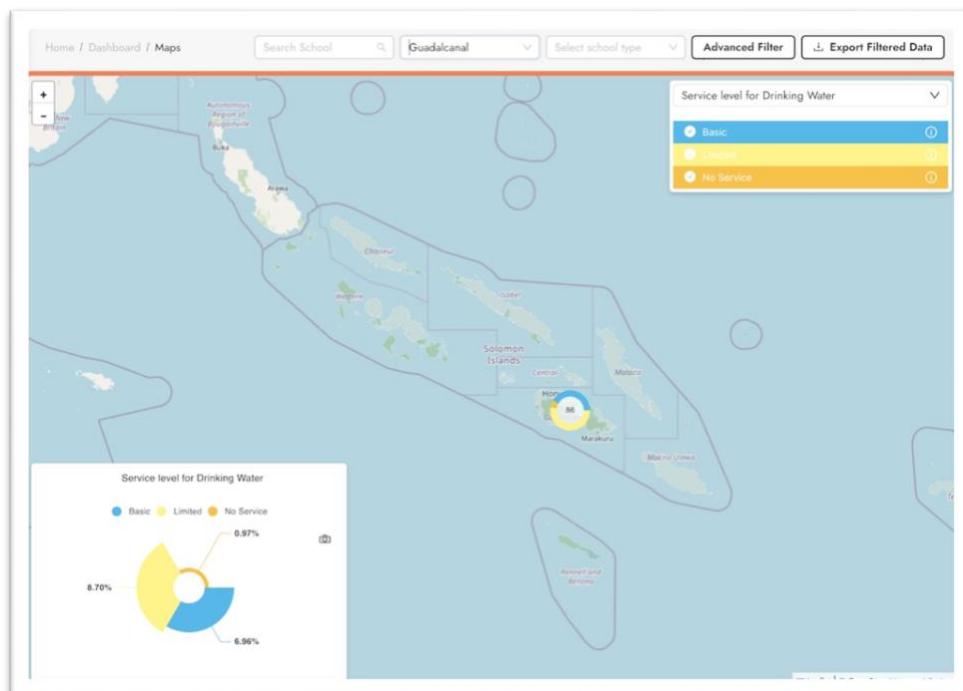

STEP 23 If you want to filter by province, you can select the Select Province dropdown.

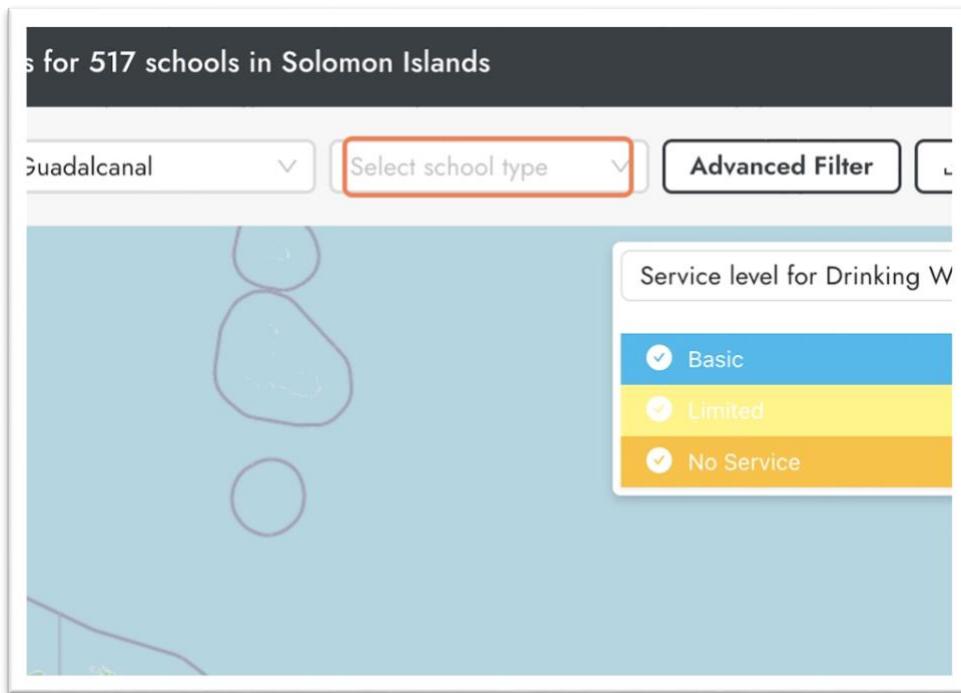

STEP 24 For example, if you want to filter by the province Guadalcanal, select Guadalcanal from the province dropdown list.

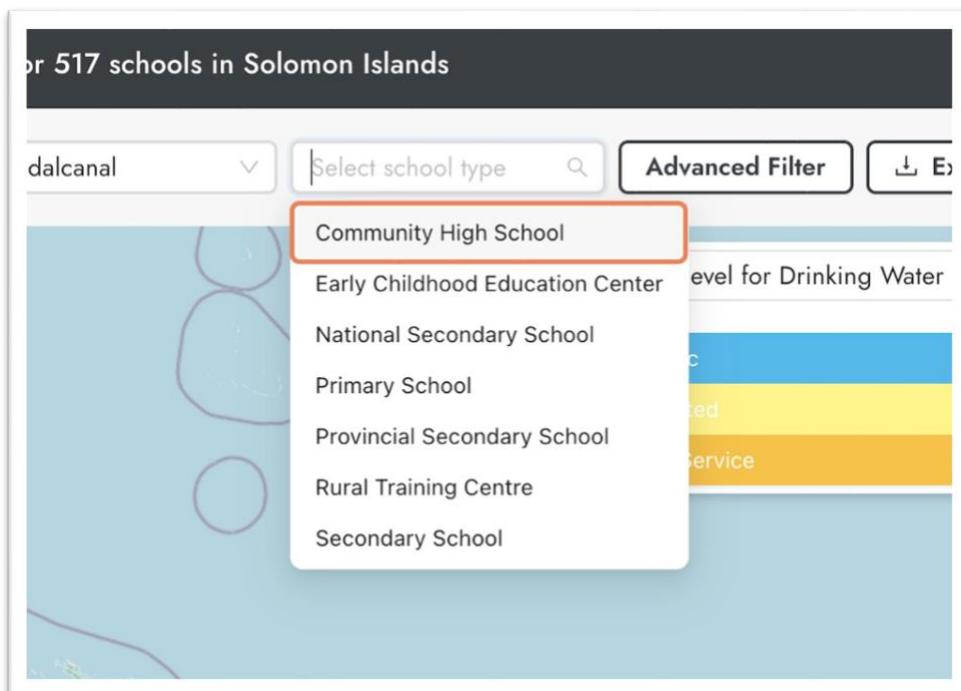

STEP 25 Then, the data on the map will be filtered to show only the Guadalcanal province.

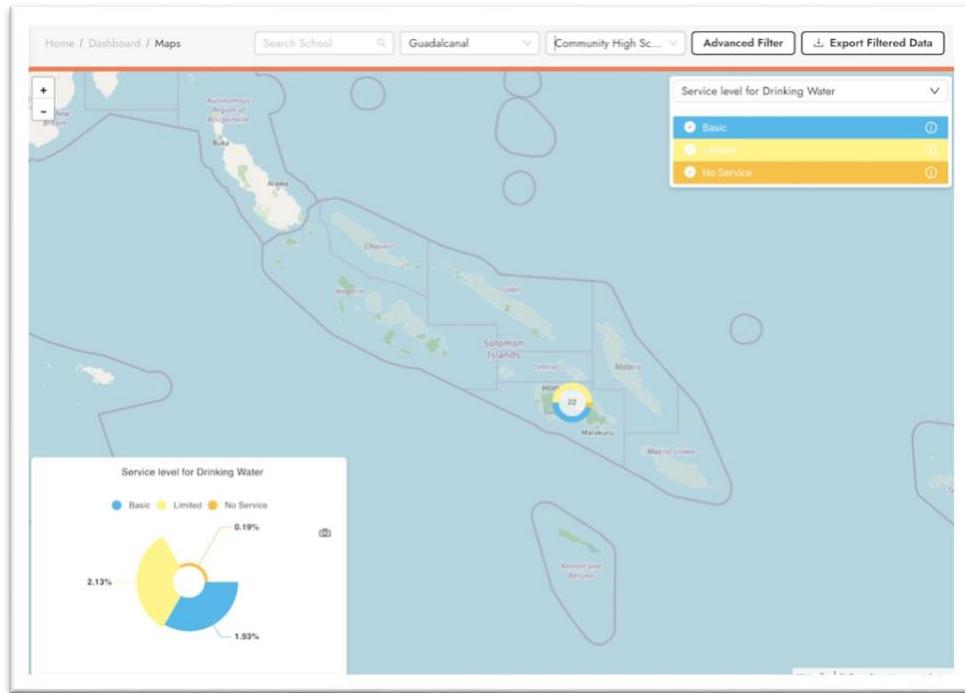

STEP 26 If you also want to filter by School Type, you can select the Select School Type dropdown.

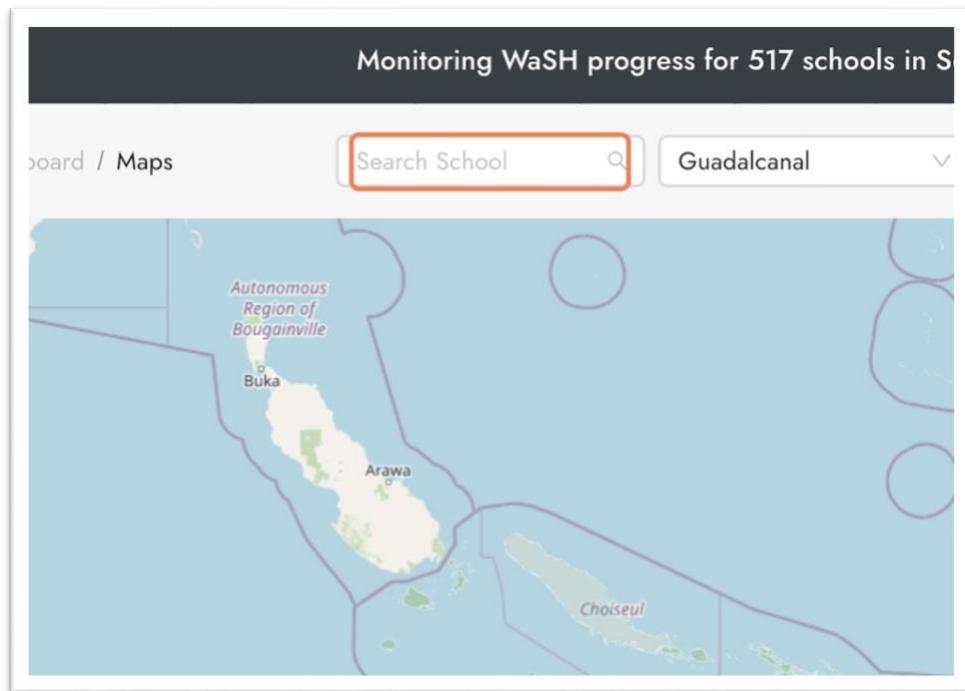

STEP 27 For example, if you want to filter by Community High School type, select the Community High School option.

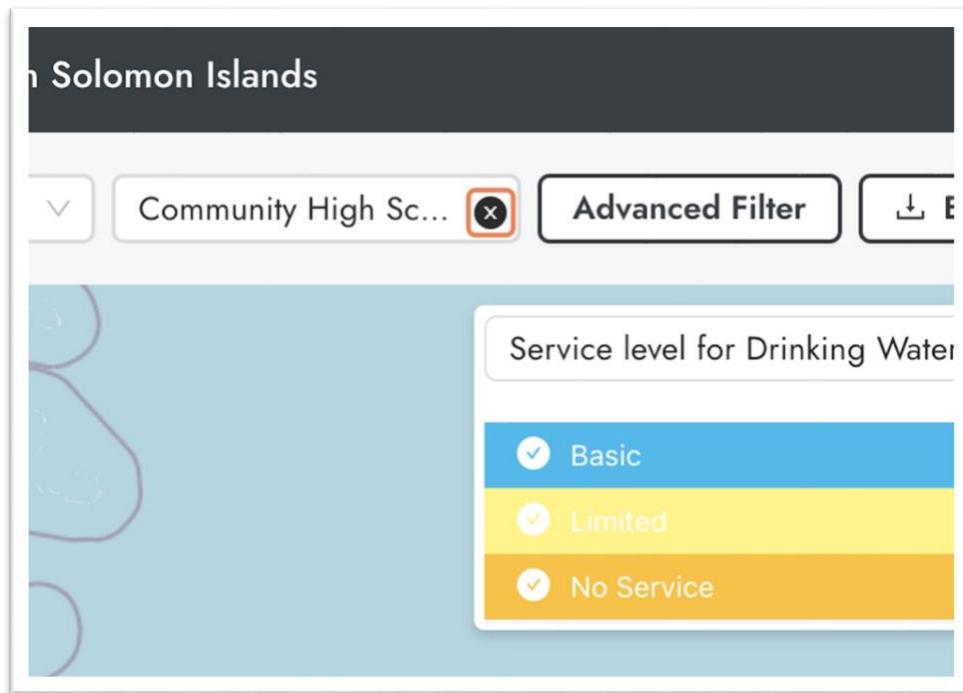

STEP 28 The map data will then be filtered based on the Guadalcanal province and Community High School type.

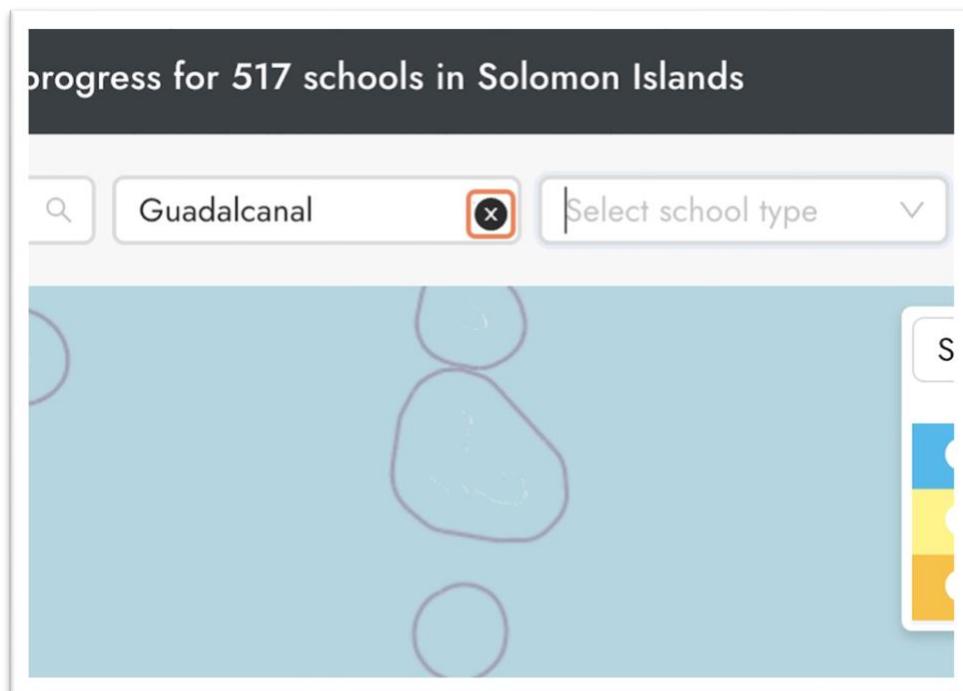

STEP 29 And if you also want to filter by school name, you can enter the school name in the Search School input field.

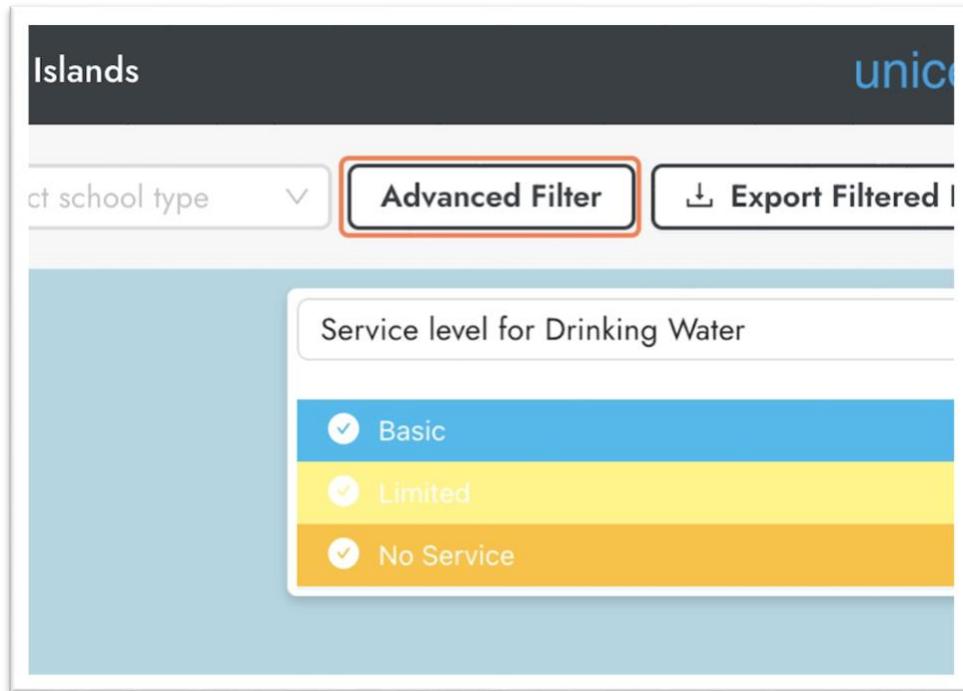

STEP 30 If you want to remove the School Type filter, click the dropdown symbol for School Type until the close button appears. Then, click the close button to remove the filter.

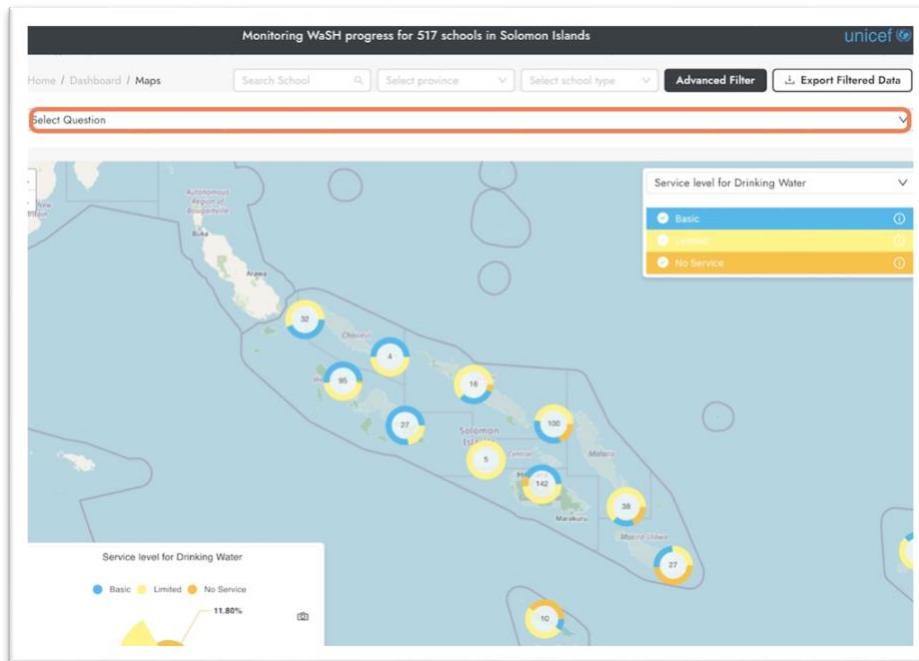

STEP 31 The same applies to removing the Province filter. Click the dropdown symbol for Province until the close button appears, then click the close button to remove the filter.

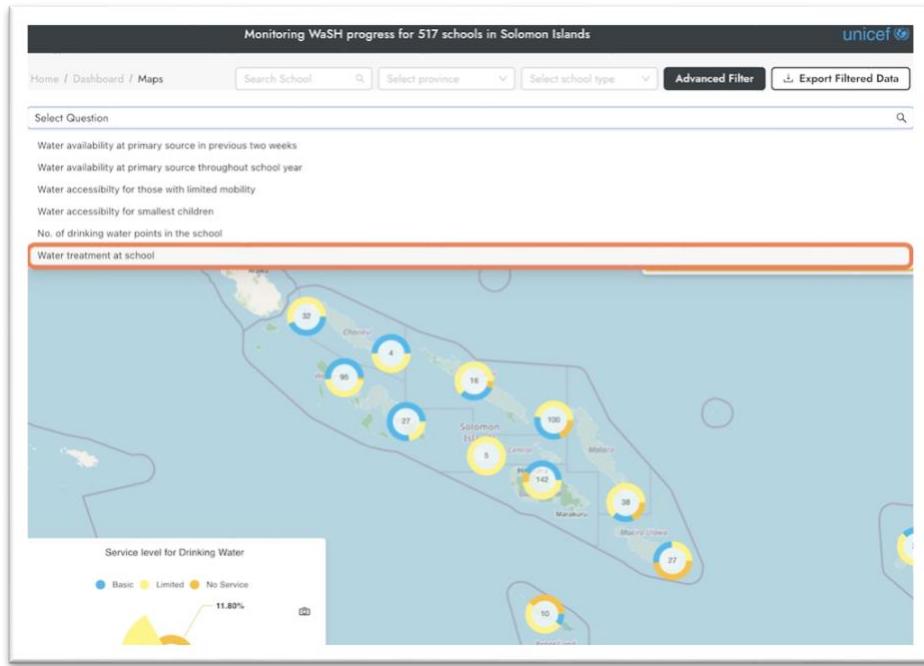

STEP 32 If you want to use the Advanced Filter, click on **Advanced Filter** to display the advanced filtering options.

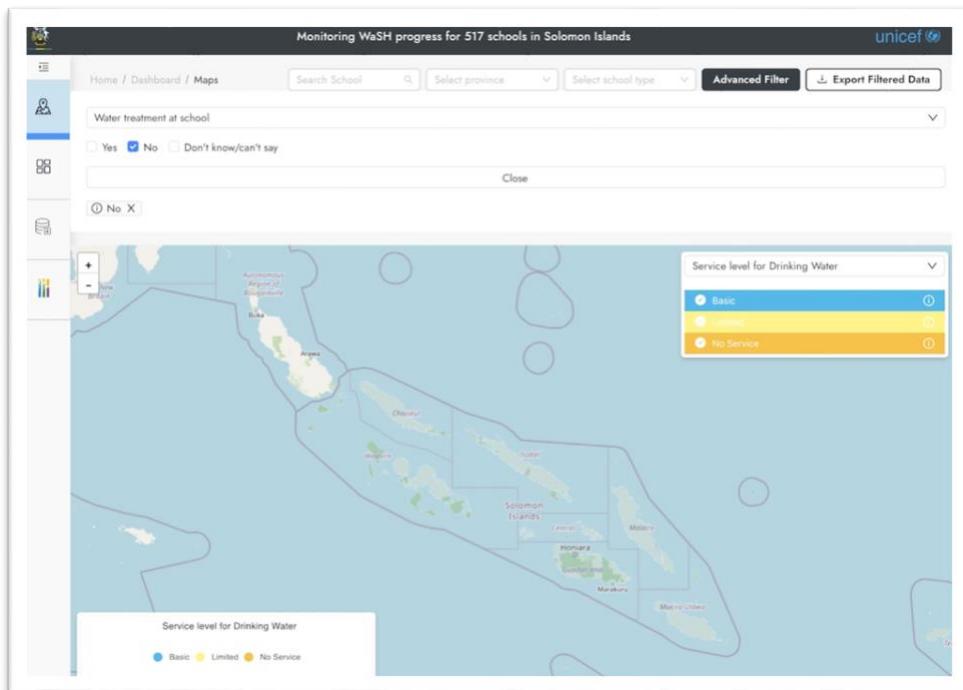

STEP 33 Then, select a Question from the Question dropdown.

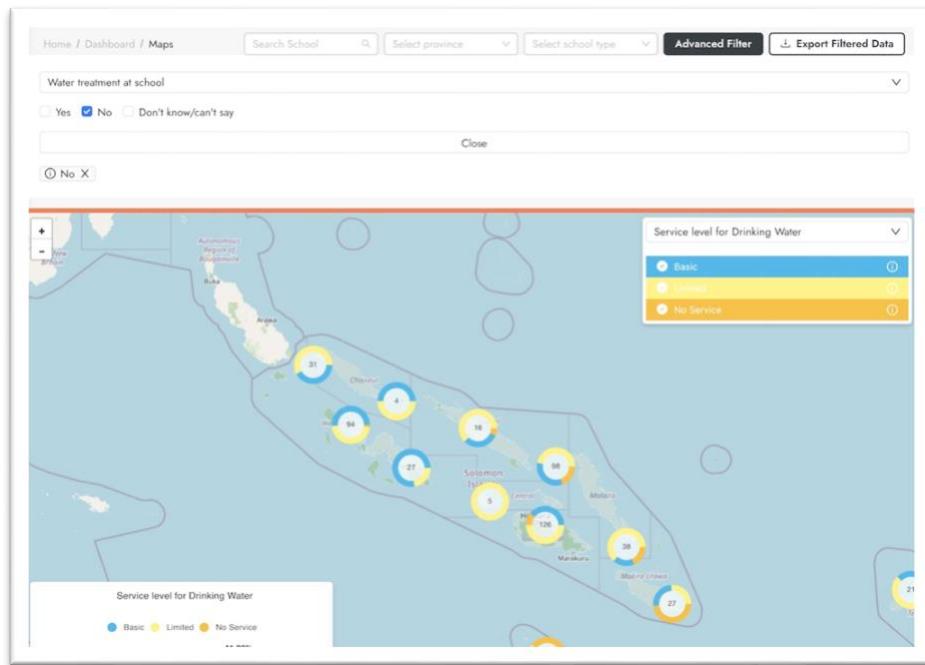

STEP 34 Select one Question from the Question List.

STEP 35 Once the Question is selected, you can filter the map data based on the answer to that question. For example, select "No".

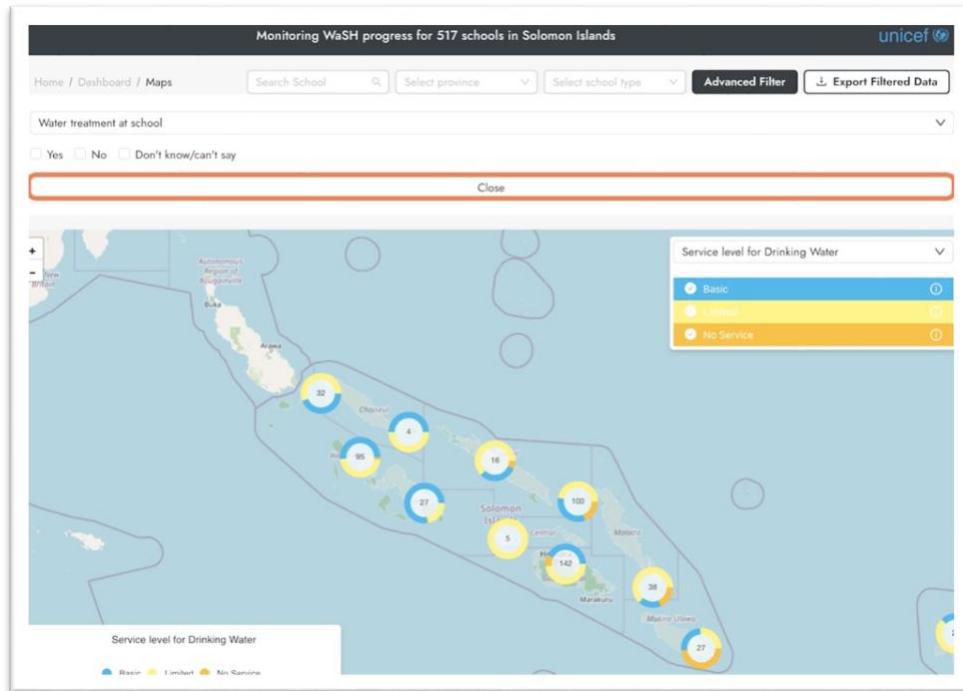

STEP 36 Then, the map data will be filtered based on the "No" answer.

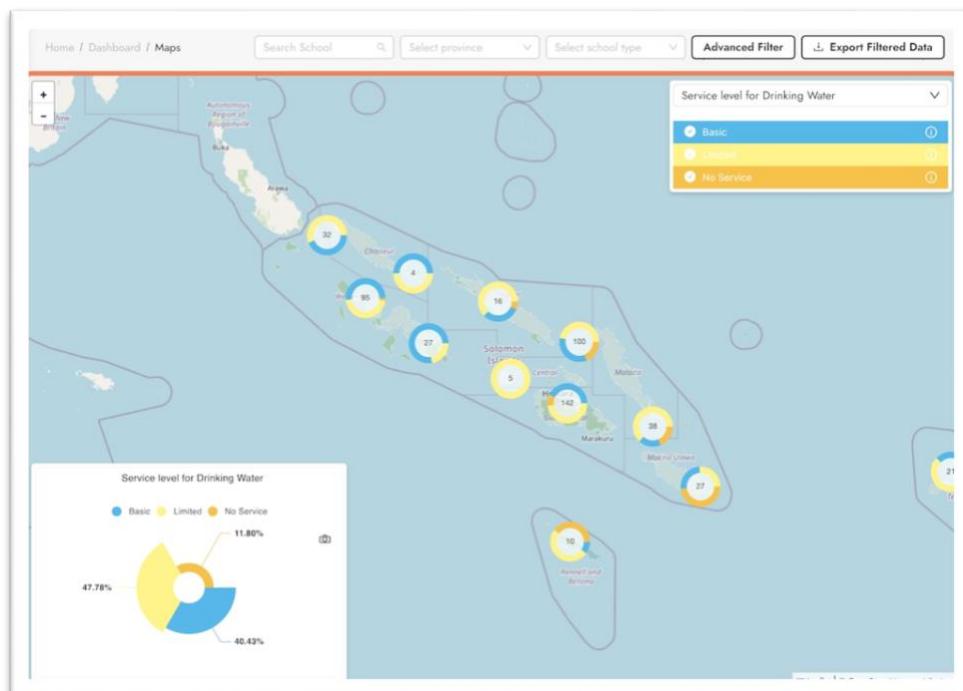

STEP 37 To remove the filter, click the close button on the "No" tag as shown below.

This screenshot shows the same map interface as above, but the 'No' filter has been removed. The 'No' checkbox in the filter modal is now unchecked, and the 'Close' button is visible again. The map displays the same regional data as before, with colored icons indicating service levels across the different island groups.

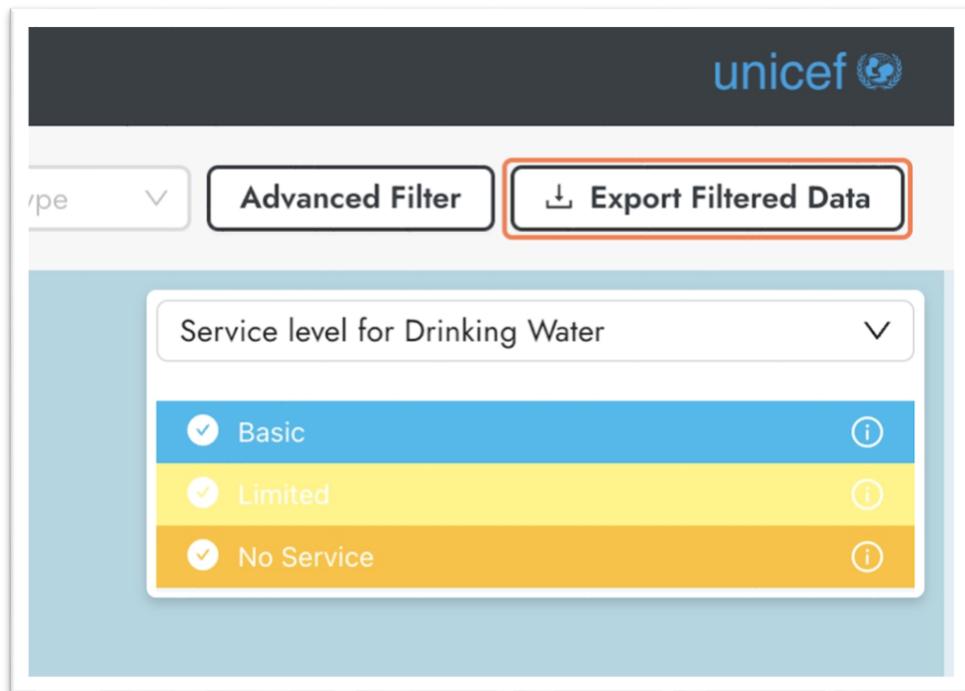

STEP 38 To close the Advanced Filter, you can click the close button or click the Advanced Filter button again.

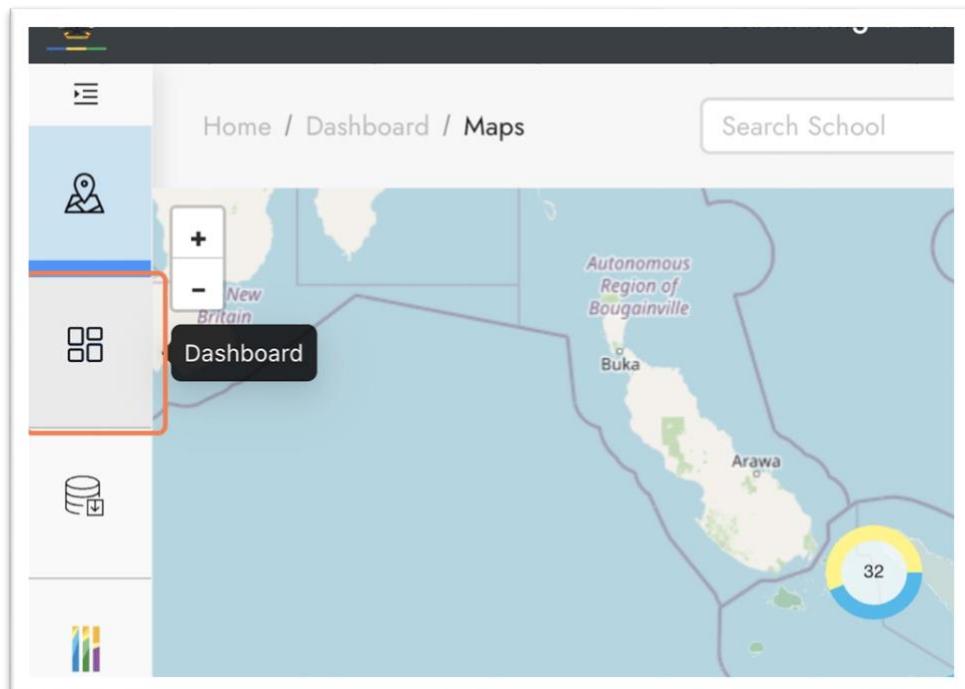

STEP 39 Then, the map will return to its original view.

STEP 40 On the maps page, you can also export your data by clicking the "Export Filtered Data" button.

STEP 41 To navigate to the Dashboard page, click the "Dashboard" menu available in the sidebar.

STEP 42 The Dashboard page will be displayed, showing the JMP Chart, followed by the "Bar Chart for Indicator" at the bottom section after the JMP Chart.

On this page, you can also filter the charts. The available filters include filtering by Province, filtering by School Type, and using the Advanced Filter. The steps for applying these filters are similar to those previously explained on the Maps page.

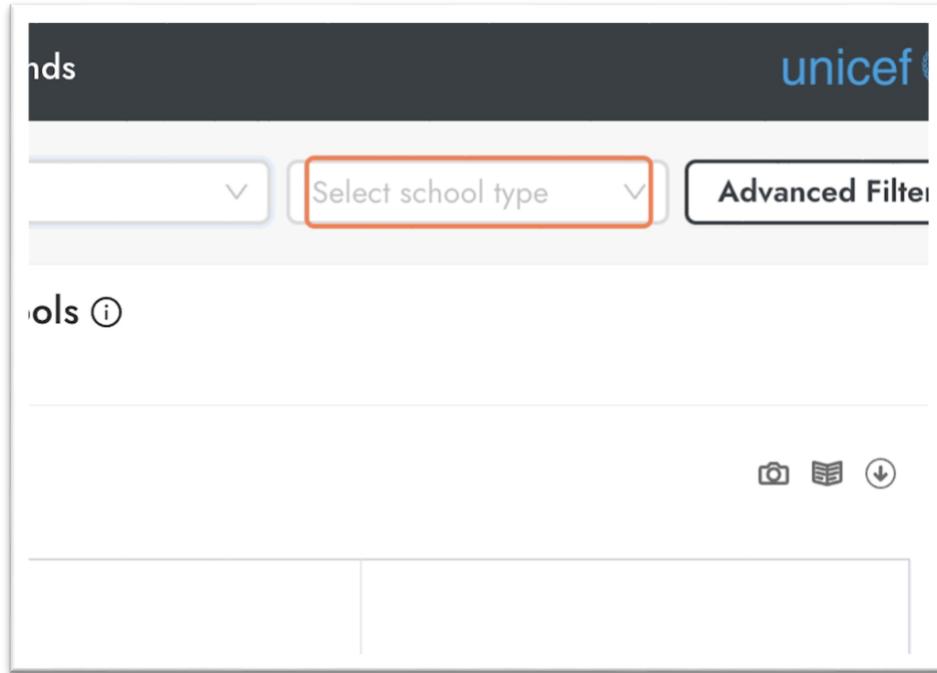

STEP 43 To filter by province, click the Select Province dropdown.

The screenshot shows a dashboard interface for 517 schools in Solomon Islands. At the top, there are two dropdown menus: 'Select province' and 'Select school type'. The 'Select province' menu is highlighted with a red box. Below these are two buttons: 'By Province' and 'Show History'. A chart displays water levels for different provinces, with blue bars at the bottom and yellow bars above them. The chart area has vertical grid lines corresponding to the province names listed below it.

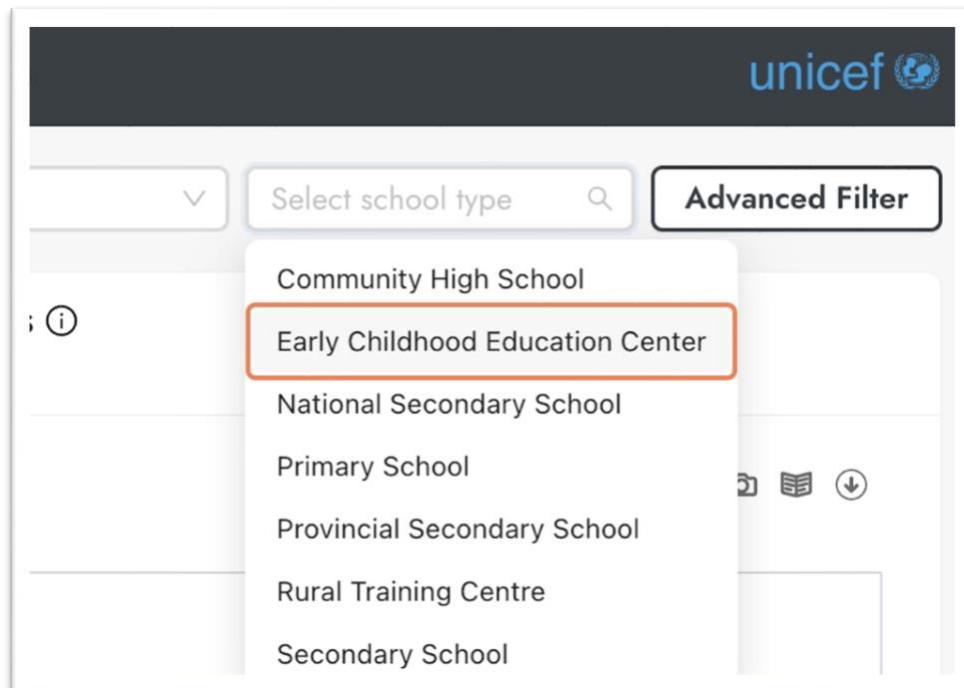

STEP 44 Then, the Province List will appear. For example, select Central from the list.

This screenshot shows the same dashboard as the previous one, but the 'Select province' dropdown is now open, displaying a list of provinces: Central, Choiseul, Guadalcanal, Honiara, Isabel, Makira and Ulawa, Malaita, and Rennell and Bellona. The option 'Central' is highlighted with a red box. The rest of the interface remains the same, including the chart and other filters.

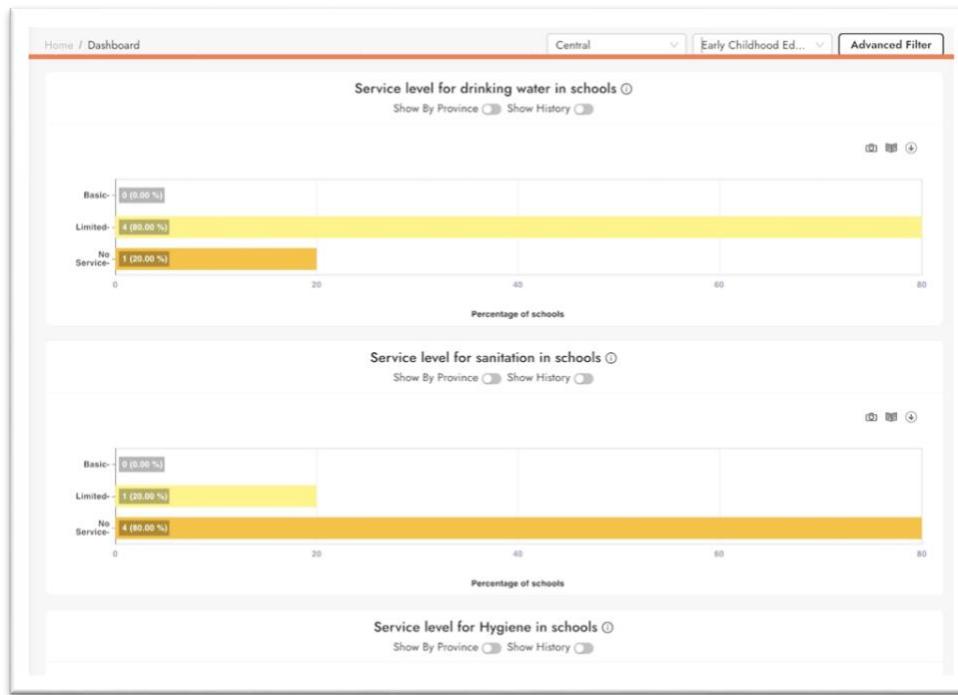

STEP 45 The same applies to the School Type filter. Click Select School Type to choose a specific type.

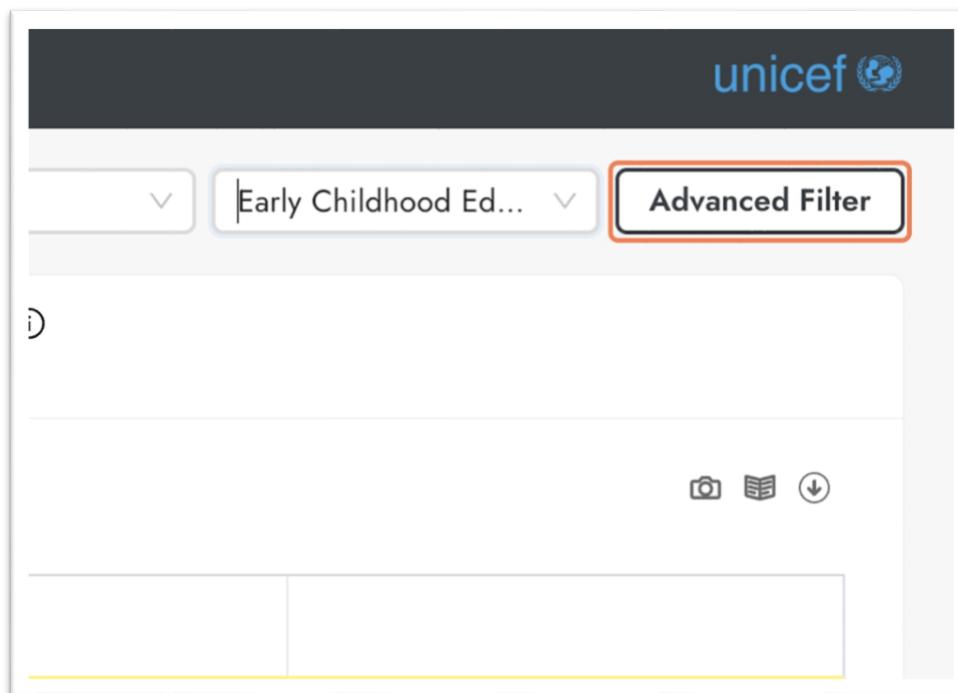

STEP 46 Then, the School Type List will appear. For example, if you want to filter by Early Childhood Education Center, select that option.

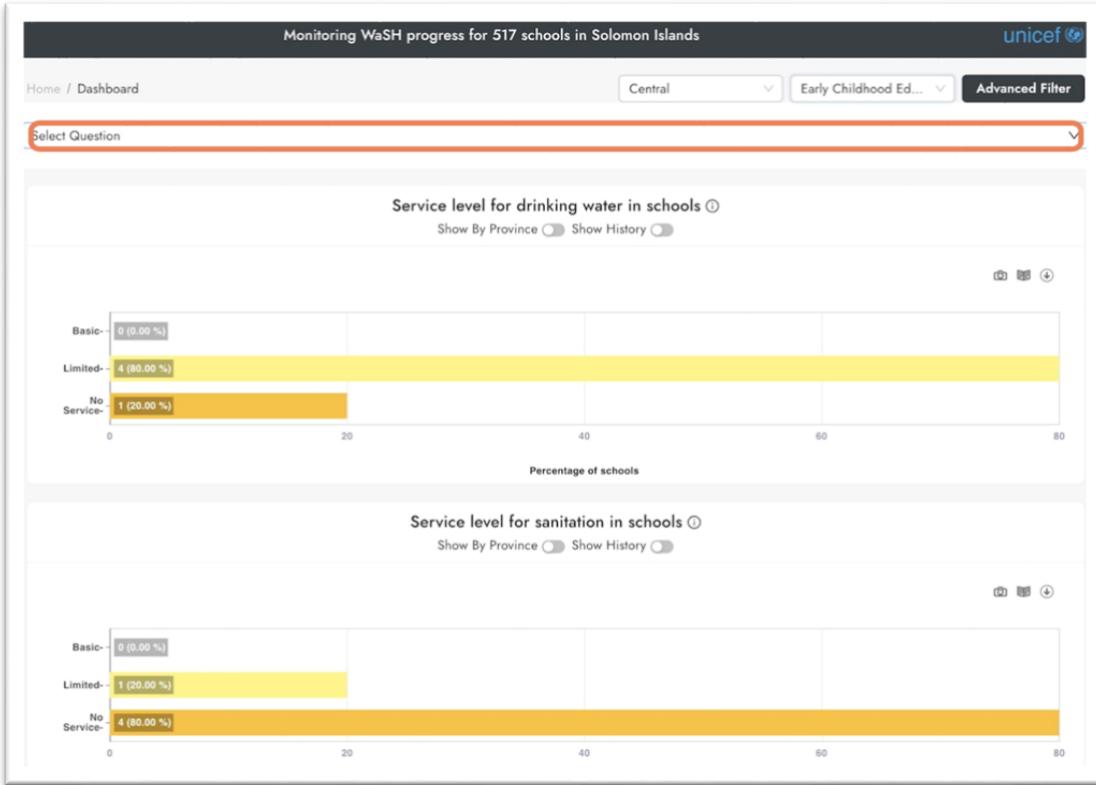

STEP 47 The data on the chart will then be filtered based on the selected Province and School Type.

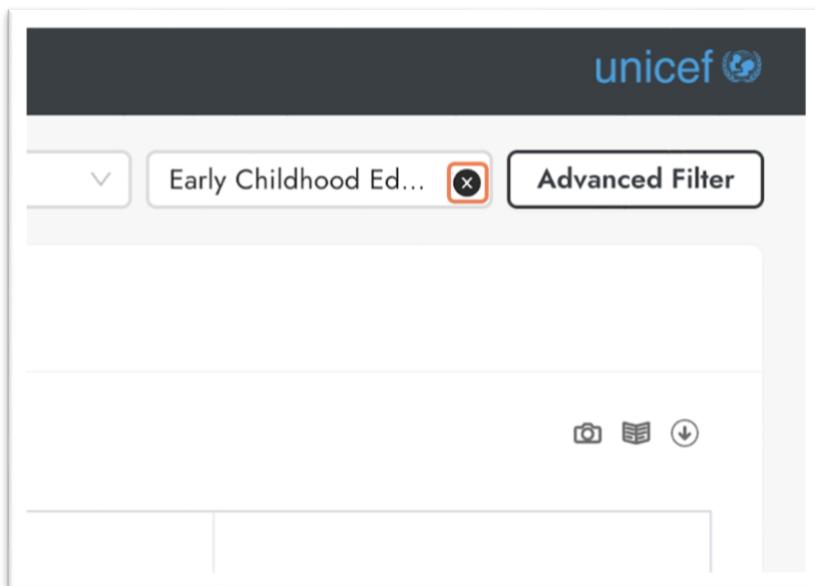

STEP 48 For the Advanced Filter, the process is the same. Click the Advanced Filter button to display the Advanced Filter feature.

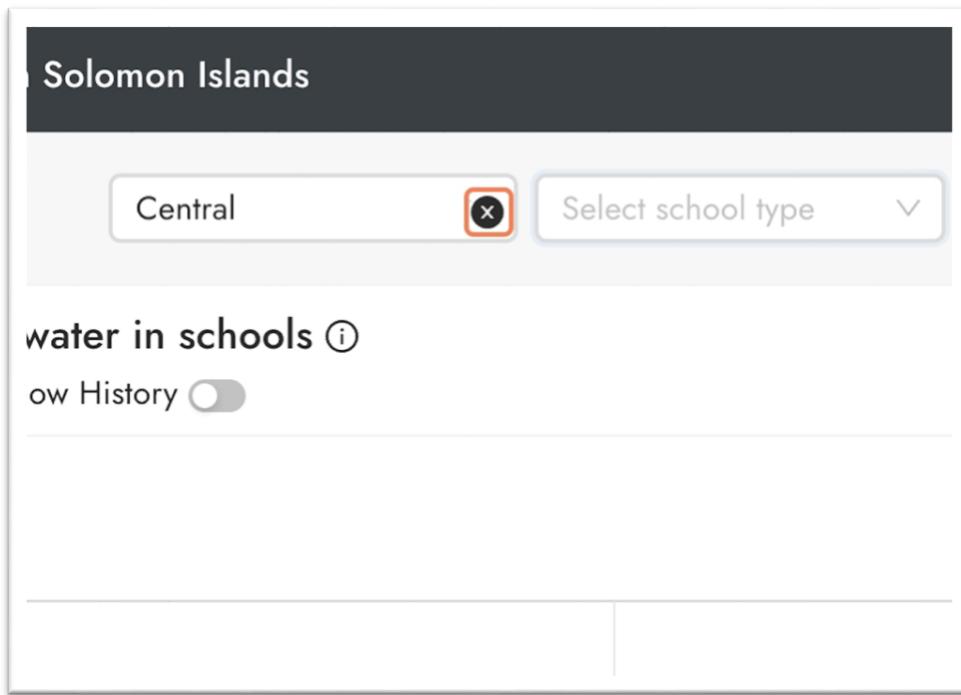

STEP 49 Then, select the desired Question from the Select Question dropdown, similar to how the Advanced Filter is used on the Maps page.

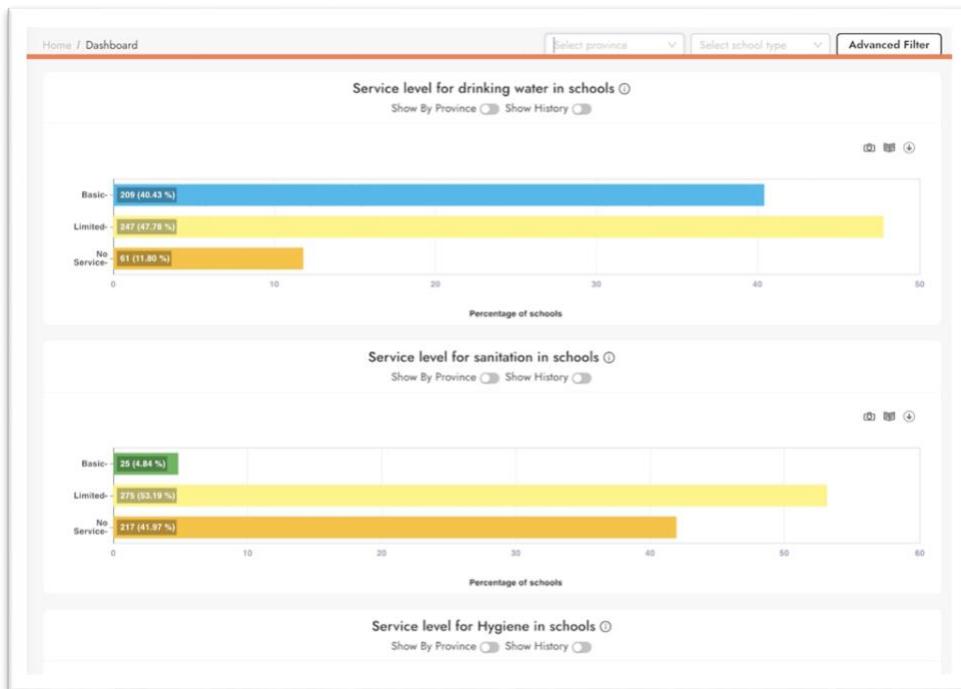

STEP 50 To remove the filter, hover over the dropdown symbol until the close icon appears. Then, click the close icon to clear the filter.

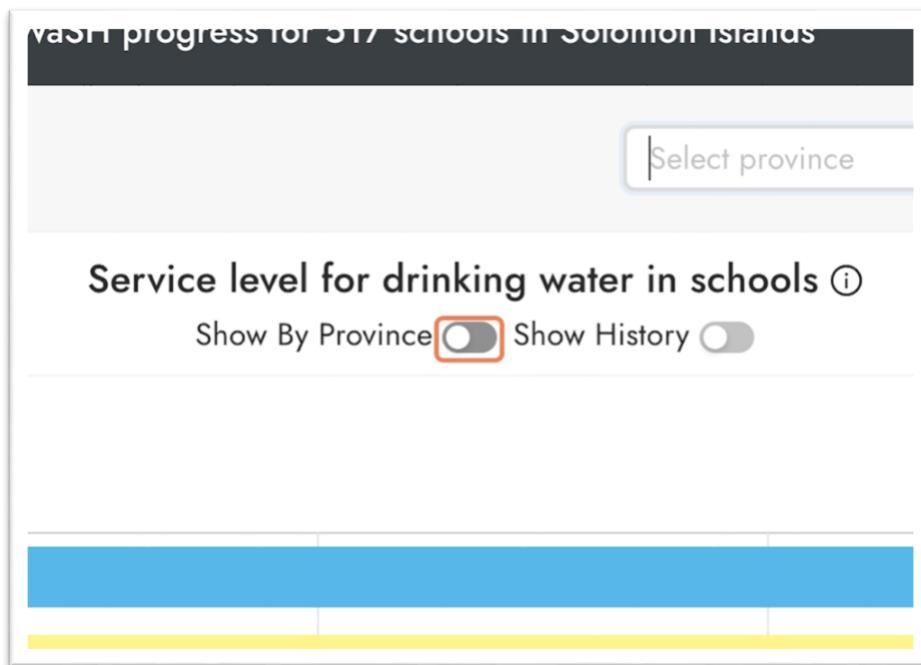

STEP 51 Click on close-circle

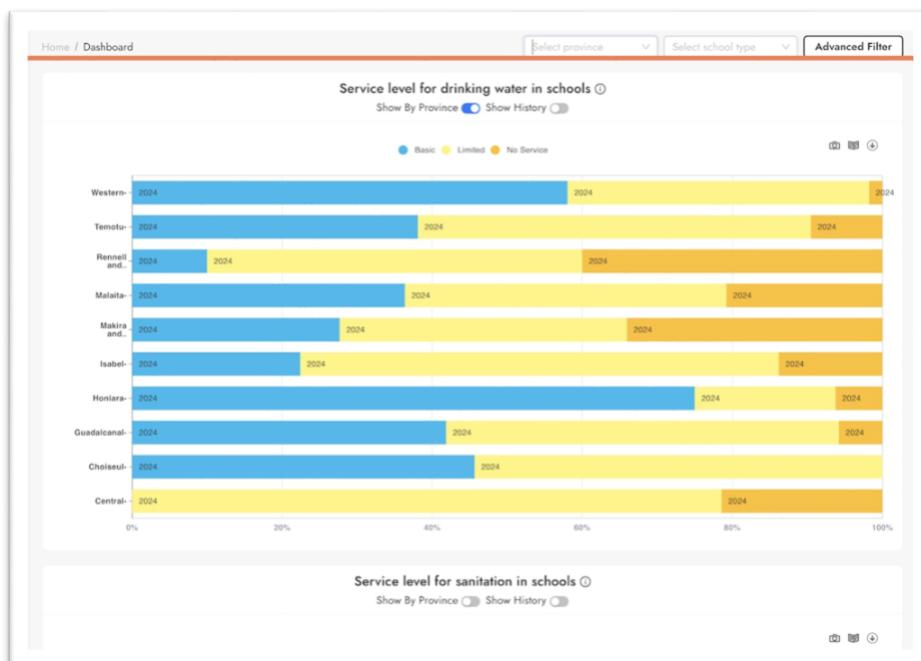

STEP 52 Then, the chart display will return to its original state before the filter was applied.

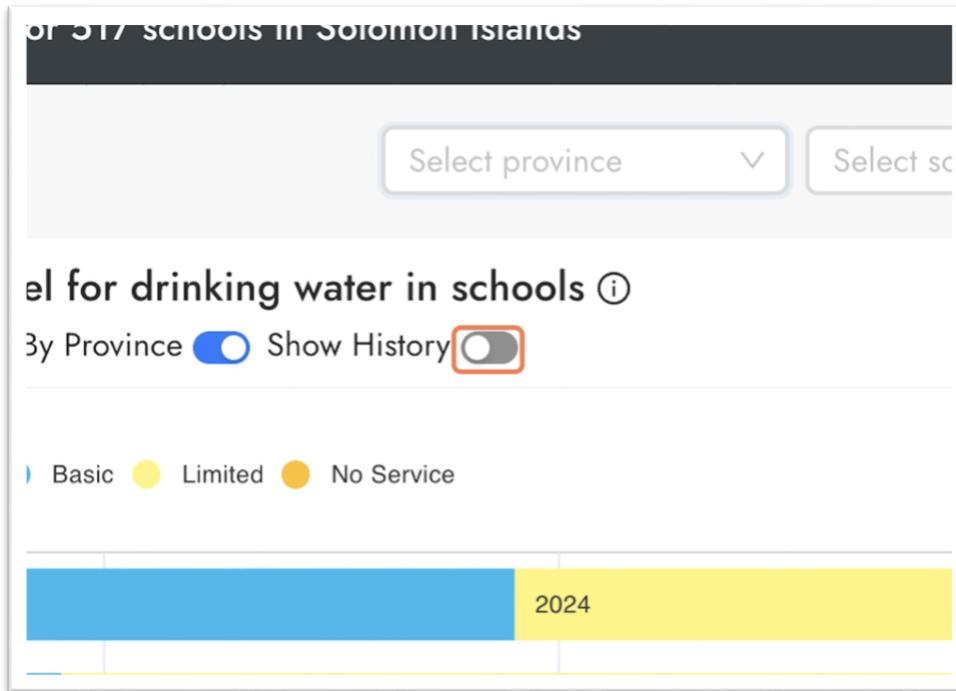

STEP 53 To display data by Province, click the Show by Province switch button.

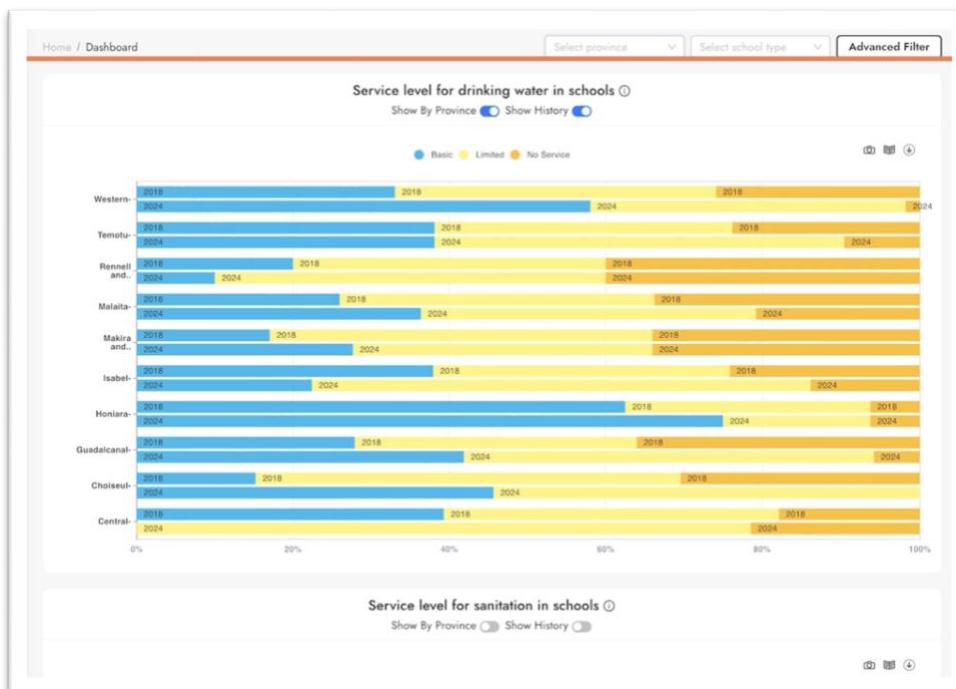

STEP 54 Then, the chart will display data for each province as shown below.

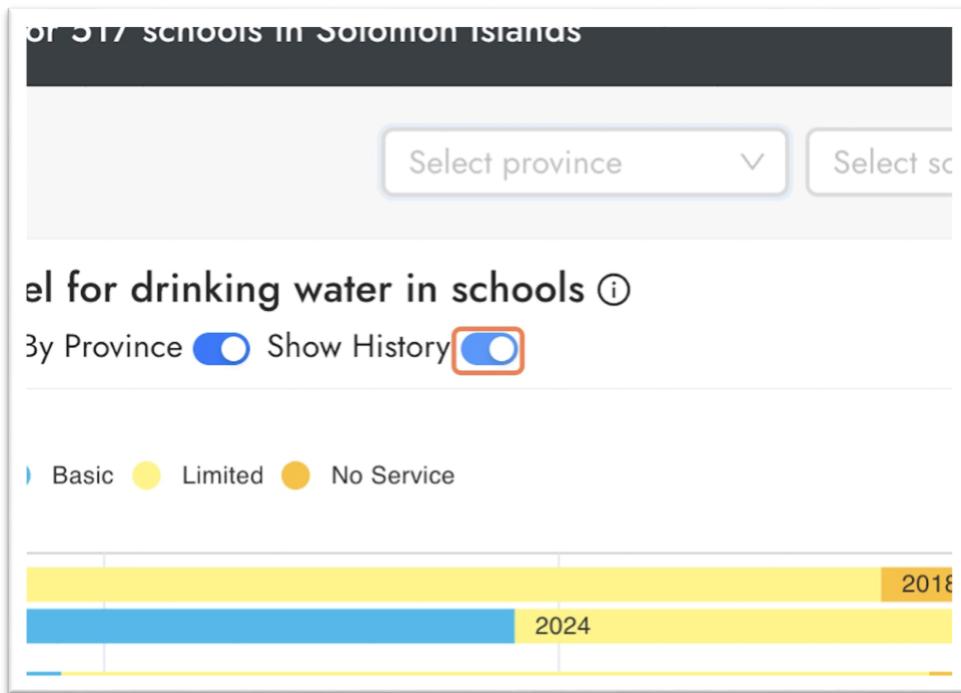

STEP 55 To display historical data from previous monitoring rounds on the chart, click the "Show History" switch button.

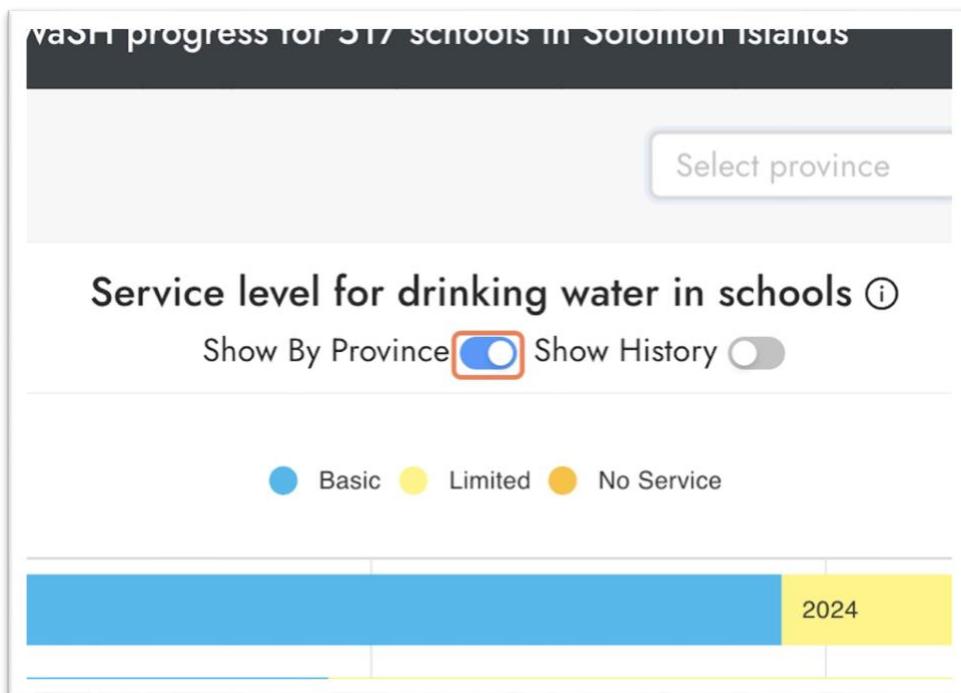

STEP 56 Then, the chart will display data for each province and include historical data since both "Show by Province" and "Show History" are active.

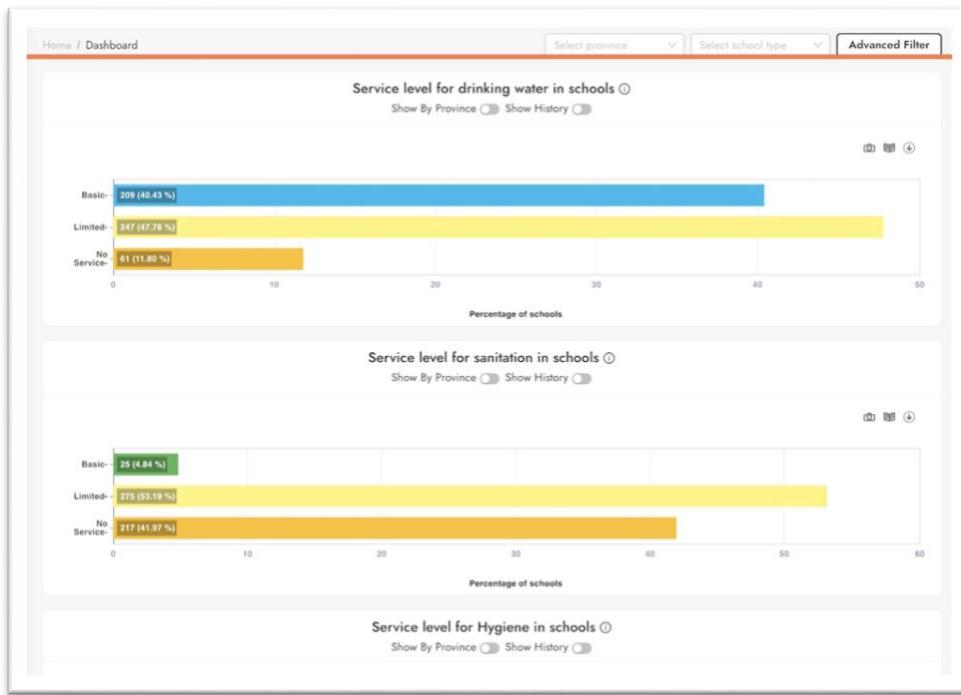

STEP 57 To hide the data by history or by province, simply click the switch button again.

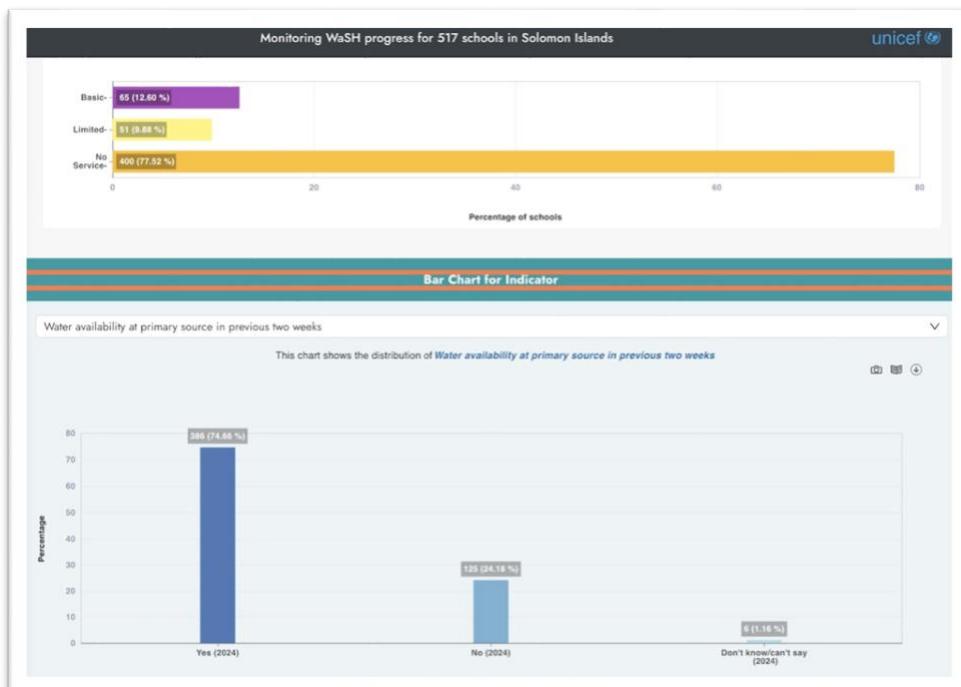

STEP 58 To hide the data by history or by province, simply click the switch button again. Click on switch

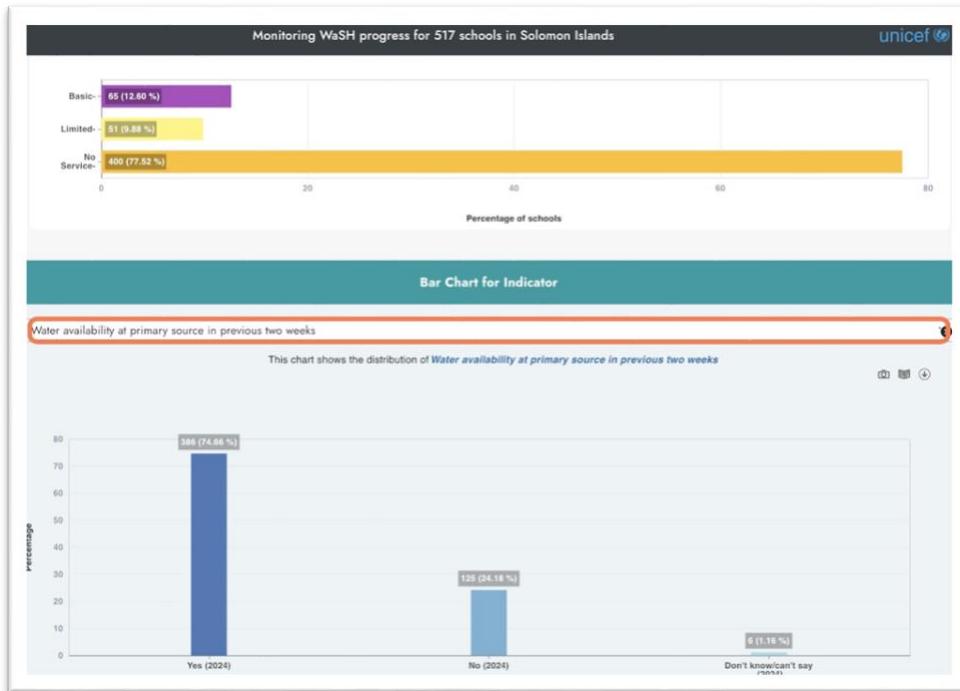

STEP 59 Then, the chart display will return to normal.

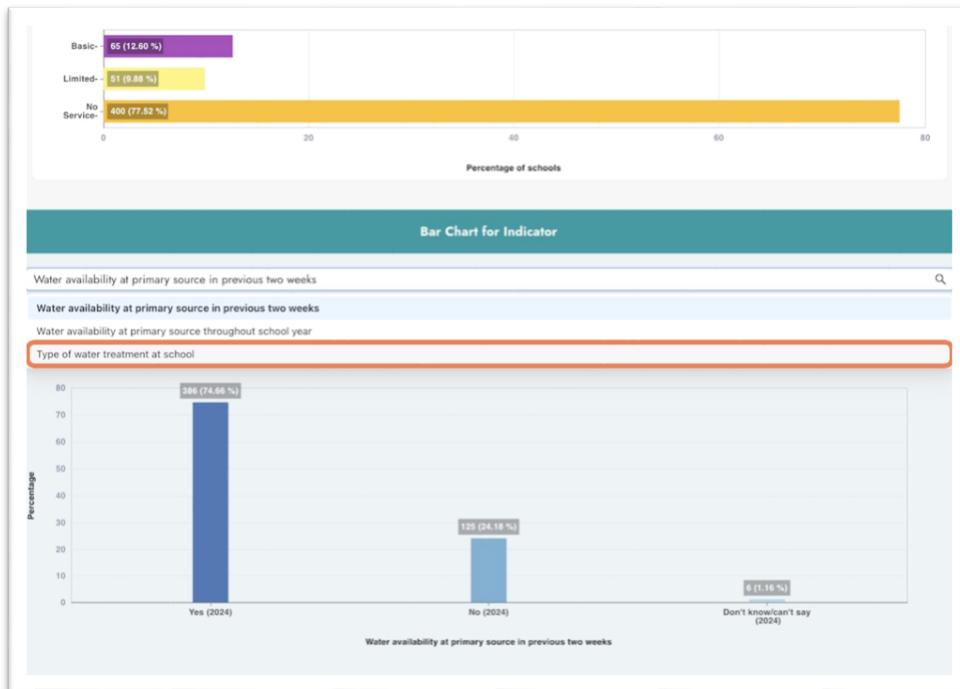

STEP 60 At the bottom section of the Dashboard page, you will find the Bar Chart for Indicator, where the data in the chart can be adjusted based on the selected question from the dropdown.

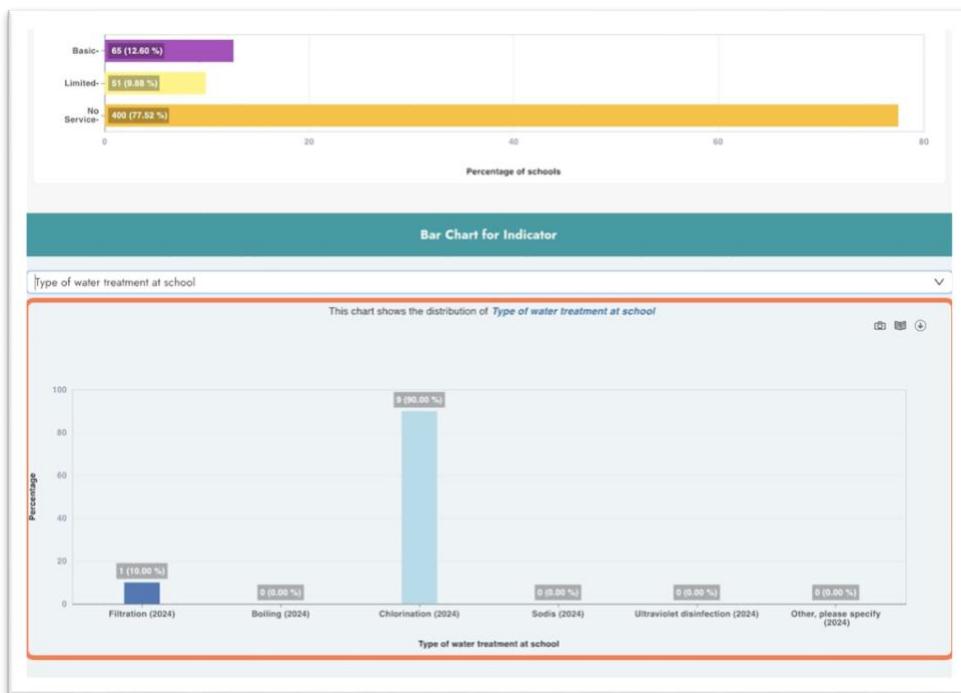

STEP 61 Click on the Question dropdown, as shown in the image, to display the Indicator Question List.

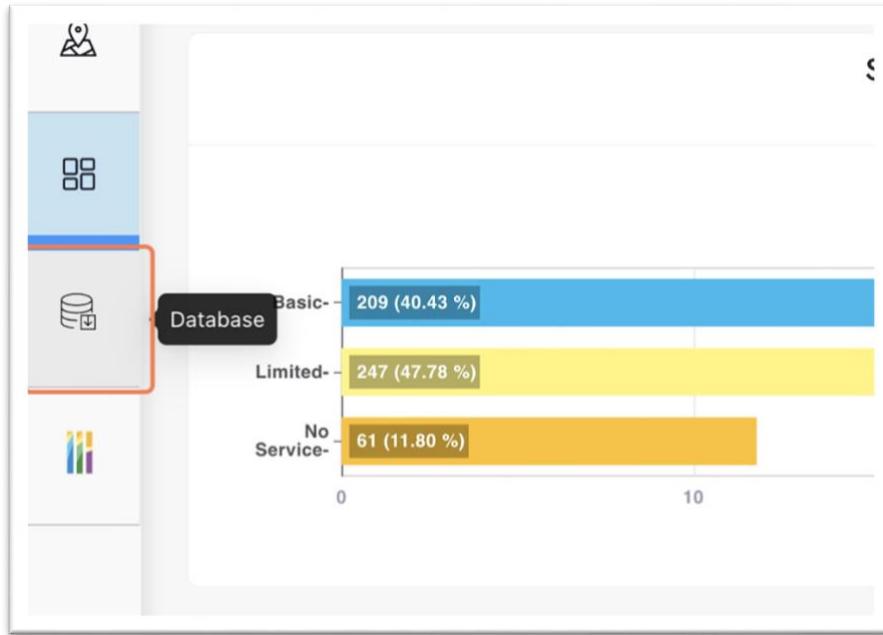

STEP 62 Select one of the questions to display the Indicator Chart based on the chosen question.

STEP 63 Then, the bar chart for the selected indicator will be displayed as shown in the image.

STEP 64 To navigate to the Database page, select the Database menu from the sidebar.

STEP 65 Then, the complete data will be displayed in a table format with pagination controls located at the bottom right of the table.

The screenshot shows a table titled "Monitoring WaSH progress for 517 schools in Solomon Islands" with the UNICEF logo. At the top, there are buttons for "View Data" and "Exports", and a set of dropdown filters for "Select Monitoring R...", "Select province", "Select school type", "Advanced Filter", and an "Export" button. Below the filters, a red box highlights the text "total: 1034 Submissions". The table has three columns: "School Name", "School Type", and "Province". Each row contains a school name, its type, and the province it is in. At the bottom right of the table, there is a pagination control with numbers 1 through 104 and a "10 / page" dropdown.

School Name	School Type	Province
Musukui Primary	Primary School	Malaita
Mamako Primary	Primary School	Malaita
Sikwafata Primary	Primary School	Malaita
Afufu Kindergarten	Early Childhood Education Center	Malaita
Afufu CHS	Community High School	Malaita
Faufanea Kindergarten	Early Childhood Education Center	Malaita
Walo CHS	Community High School	Malaita
Madalua CHS	Community High School	Malaita
Aroaha Kindy	Early Childhood Education Center	Makira and Ulawa
Su'umoli Kindy	Early Childhood Education Center	Makira and Ulawa

STEP 66 On this page, you can also apply several filters, such as Filter by Monitoring Round, Province, School Type, and Advanced Filter.

The process of using the Filter by Province, School Type, and Advanced Filter features is the same as on the previous pages.

Monitoring WaSH progress for 517 schools in Solomon Islands

Select Monitoring R... ▾ Select province ▾

School Type

Primary School

Primary School

Primary School

STEP 67 The new filter here is the Filter by Monitoring Round, which is used to filter data based on the selected monitoring round. Choose one monitoring round from the dropdown list to apply the filter.

STEP 68 Then, select a province from the list, for example, Central.

The screenshot shows a user interface for tracking WaSH progress across 517 schools in Solomon Islands. At the top, a header reads "WaSH progress for 517 schools in Solomon Islands". Below the header are three dropdown menus: "2024" (selected), "Select province" (with a search icon), and "Select school type" (with a dropdown arrow). A dropdown menu for "Select province" is open, listing "Central" (which is highlighted with a red border), "Choiseul", "Guadalcanal", "Honiara", "Isabel", "Makira and Ulawa", "Malaita", and "Pennell and Ballona". To the right of this dropdown, a column labeled "Province" lists "Malaita", "Malaita", and "Malaita" corresponding to the three entries above. On the left, there is a section titled "School Type" with three rows: "Primary School", "Primary School", and "Primary School".

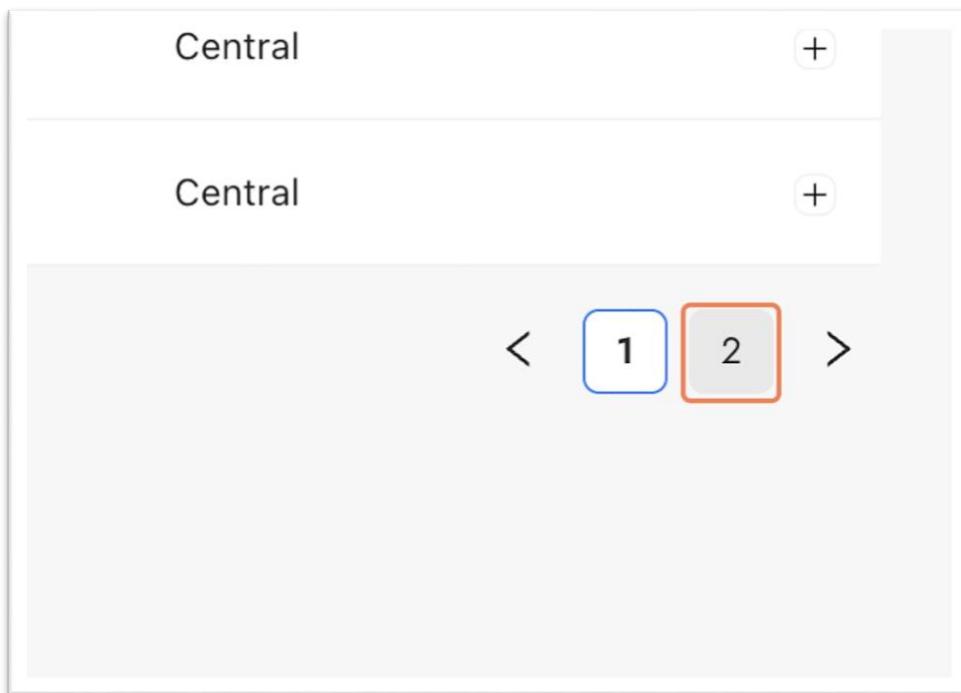

STEP 69 To filter by school type, select a school type from the "Select School Type" dropdown, for example, Community High School.

The screenshot shows the same interface as the previous step, but with a different focus. The "Select school type" dropdown is now open, displaying "Community High School" (highlighted with a red border), "Early Childhood Education Center", "National Secondary School", "Primary School", "Provincial Secondary School", and "Rural Training Centre". The "Advanced Filter" button is also visible next to the dropdown. The rest of the interface remains the same, with the "Select province" dropdown still showing "Central" and the "School Type" section below it.

STEP 70 Then, the data will be displayed based on the three active filters: Monitoring Round 2024, Central Province, and Community High School type.

Monitoring WaSH progress for 517 schools in Solomon Islands				unicef
View Data		Exports		
		2024	Central	Community High Sc...
Total: 12 Submissions				
School Name	School Type	Province		+
Louna CHS	Community High School	Central		+
Yandina CHS	Community High School	Central		+
Nukufero CHS	Community High School	Central		+
Palibeta CHS	Community High School	Central		+
Binusa/Vatilau CHS	Community High School	Central		+
Kalaka CHS	Community High School	Central		+
Dala CHS	Community High School	Central		+

Vuranimala CHS	Community High School	Central		+
Gela Ilau CHS	Community High School	Central		+

STEP 71 To navigate to the next page, you can use the pagination buttons located at the bottom right of the table, as shown in the image.

STEP 72 The data on the next page will be displayed as shown in the image.

The screenshot shows a web-based monitoring system for WaSH progress across 517 schools in Solomon Islands. The interface includes a header with the title 'Monitoring WaSH progress for 517 schools in Solomon Islands' and the UNICEF logo. Below the header are tabs for 'View Data' and 'Exports'. A search bar allows filtering by year (2024), province (Central), and school type (Community High School). Buttons for 'Advanced Filter' and 'Export' are also present. A red box highlights the message 'Total: 12 Submissions'. The main content area displays a table with three columns: 'School Name', 'School Type', and 'Province'. Two entries are listed: Macmahon CHS (Community High School, Central) and Halavo CHS (Community High School, Central). Navigation arrows at the bottom indicate there are two pages of results.

STEP 73 To view the details of a specific data entry, click the plus (+) icon button on the data row, as shown in the image.

This screenshot shows a detailed view of a specific data entry, likely a province. The top section is titled 'Province' with a blue horizontal bar. Below it, the word 'Central' is listed next to a plus (+) icon button, which is highlighted with a red square. At the bottom of the screen, there are navigation arrows (<, 1, 2, >) indicating this is a paginated view. The rest of the screen is mostly blank, suggesting a zoomed-in view of the data entry.

STEP 74 This will expand the selected row, displaying detailed information. In this detailed view, there is a tab menu that allows you to navigate through different groups of information, such as General Information, School Information, Water Supply Core Questions, and more.

[View Data](#) [Exports](#)

General Information

Which year was the survey conducted? 2024

What is his/her designation/position/authority? Education Officer

What is his/her position in the school? Principal

< 1 [2](#) >

STEP 75 To display the detailed answers for the Water Supply Core Questions, select the Water Supply Core Questions tab.

The screenshot shows a survey application interface. At the top, there is a header bar with the title 'School Type'. Below this, there are two entries for 'Community High School'. Underneath these entries, there is a navigation bar with several tabs: 'School Information' (which is currently selected and highlighted in blue), 'Water Supply Core Questions' (which is also highlighted with a red box), 'Water Availability', 'Water Accessibility', 'Water Quality', 'Sanitation Core Questions', and 'Hygiene'. Below the navigation bar, there are two questions displayed:

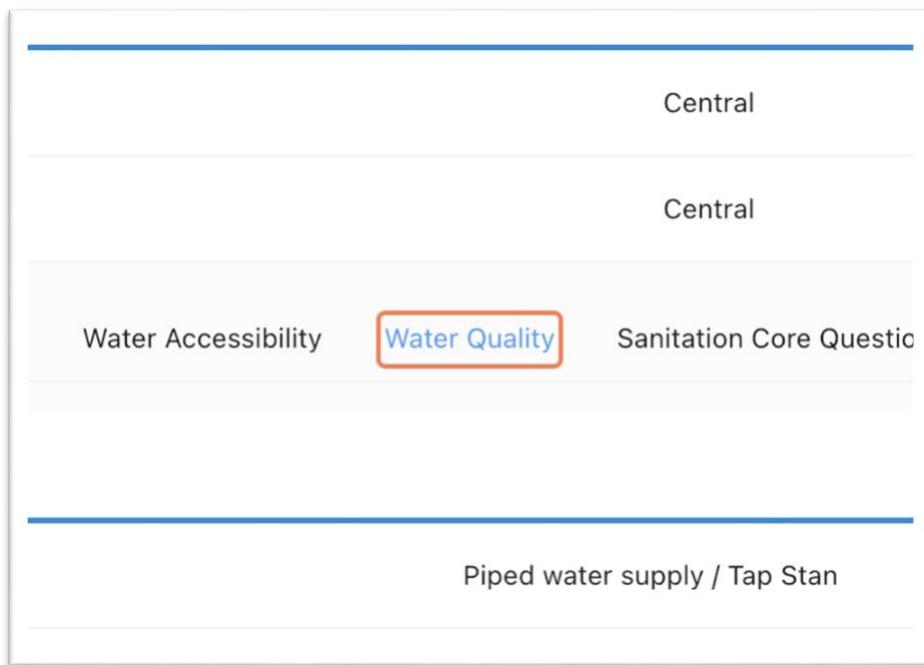

- 'Who conducted the survey?' (The answer is partially visible as 'as the survey conducted?')
- 'What is your designation/position/authority?' (The answer is partially visible as 'r designation/position/authority?')

STEP 76 Then, the details of the Water Supply Core Questions will be displayed as shown in the image below.

The screenshot shows a survey results page. At the top, there are filter options: 'Year' (2024), 'Region' (Central), 'School Type' (Community High School), 'Advanced Filter', and 'Export'. Below these, it says 'Total: 12 Submissions'. There is a table with columns: 'School Name', 'School Type', and 'Province'. Two rows are listed: Macmahon CHS (Community High School, Central) and Halavo CHS (Community High School, Central). Below the table, there is a navigation bar with tabs: 'General Information', 'School Information', 'Water Supply Core Questions' (which is highlighted with a red box), 'Water Availability', 'Water Accessibility', 'Water Quality', 'Sanitation Core Questions', and 'Hygiene'. The 'Water Supply Core Questions' tab is active, showing the following questions and answers:

Question	Answer
What is the primary / main point of drinking water for the school?	Piped water supply / Tap Stand
Where is the primary water point located?	On the premises of the school
What is the distance of the off-school grounds water point (meters)?	Within 500 meters of the school
Is the primary water point also shared with the communities around the school?	Yes

STEP 77 Click on Water Quality to display the details of Water Quality.

STEP 78 Then, the details of Water Quality will be displayed as shown below.

This screenshot shows a detailed view of the 'Water Quality' section for a specific school. The top navigation bar includes filters for '2024', 'Central', 'Community High Sc...', 'Advanced Filter', and 'Export'. Below the filters, it says 'Total: 12 Submissions'. The main table has columns for 'School Name', 'School Type', and 'Province'. Two rows are listed: 'Macmahon CHS' (Community High School, Central) and 'Halavo CHS' (Community High School, Central). The 'Water Quality' tab is selected in the navigation bar. A large orange box highlights the 'Water Quality' section, which contains two questions: 'Has the water from the school primary water point been tested for quality checks in the last 12 months?' (No) and 'Does the school do anything (treatment) to the water from the main point to make it safe to drink?' (No). Navigation arrows at the bottom indicate this is page 2 of 2.

STEP 79 To close the data details, click on the minus (-) button.

The screenshot shows a modal window titled "Province". It contains two rows of data. The first row has the value "Central" and a "+" button to its right. The second row also has "Central" and a minus (-) button to its right, which is highlighted with a red box. Below the rows is a navigation bar with tabs: "Water Quality" (selected), "Sanitation Core Questions", "Hygiene", and "...".

STEP 80 Then, the data table will return to its original view.

The screenshot shows a data table titled "Monitoring WaSH progress for 517 schools in Solomon Islands". The table has three columns: "School Name", "School Type", and "Province". There are two rows of data. The first row is for "Macmahon CHS" (Community High School, Central Province). The second row is for "Halavo CHS" (Community High School, Central Province). A red box highlights the text "total: 12 Submissions" at the top of the table. The table includes a header bar with filters for "2024", "Central", "Community High Sc...", "Advanced Filter", and "Export". At the bottom, there are navigation arrows and a page number "2" in a red box.

School Name	School Type	Province
Macmahon CHS	Community High School	Central
Halavo CHS	Community High School	Central

STEP 81 On this page, you can also export data into an Excel file. The exported data will be influenced by any filters applied to the data table.

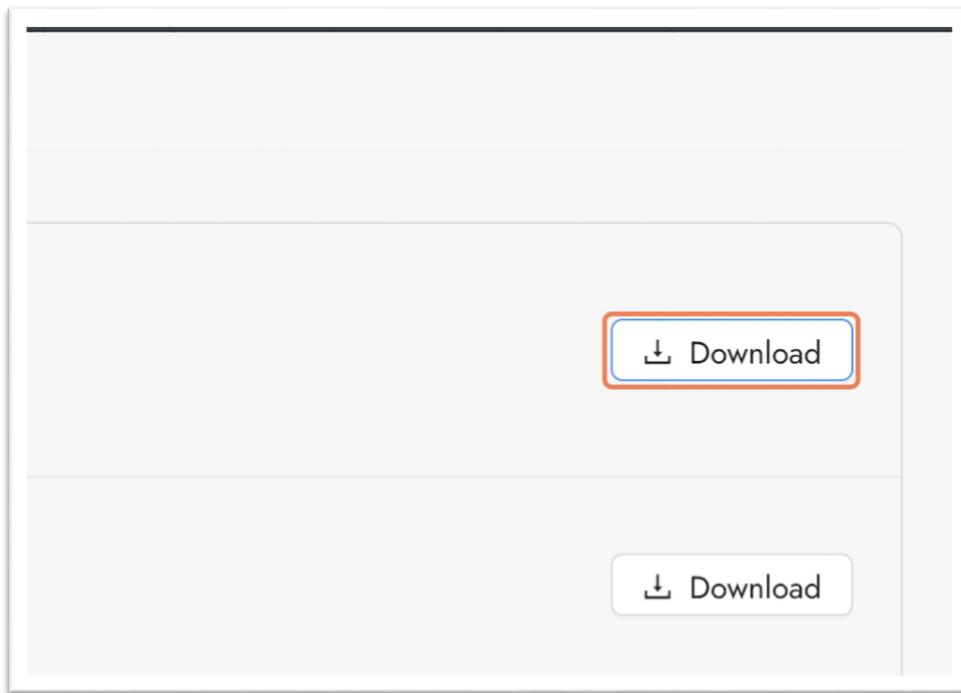

The screenshot shows a user interface for data export. At the top, there is a dark header bar with the UNICEF logo. Below it, a search bar contains the text "Community High Sc..." followed by a dropdown arrow. To the right of the search bar are two buttons: "Advanced Filter" and "Export". The "Export" button is highlighted with a red border. Below these buttons is a section titled "Province" with a dropdown menu. The menu is currently set to "Central" and has a blue underline. A small "+" icon is located to the right of the dropdown menu.

STEP 82 After clicking "Export," a list of exported data will appear, sorted by date and displaying the details of the applied filters.

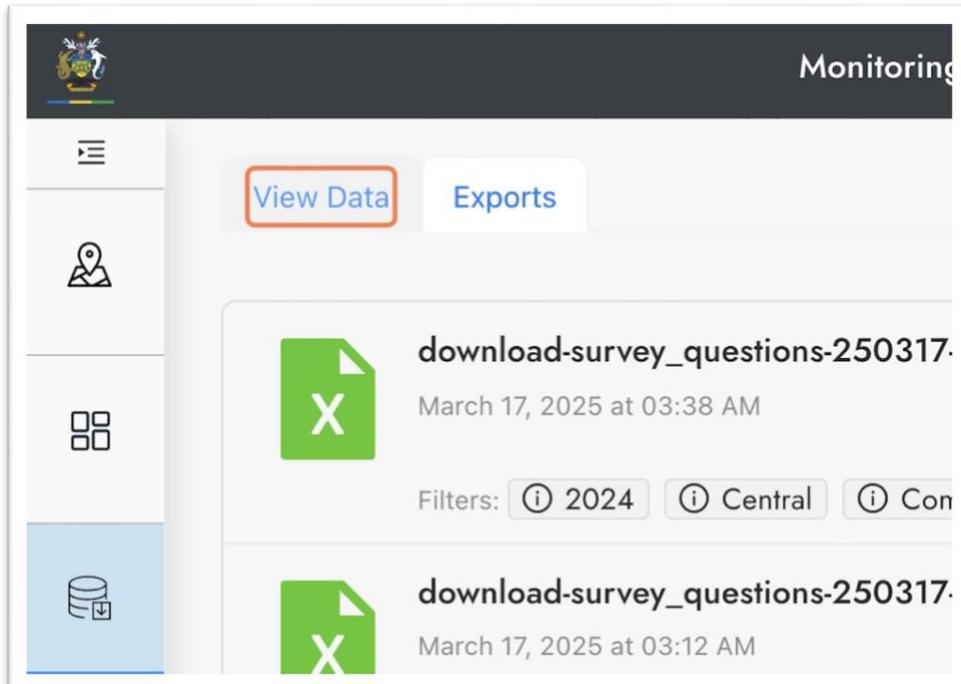

The screenshot shows a list of exported data files. The top navigation bar includes "Monitoring WaSH progress for 517 schools in Solomon Islands" and the UNICEF logo. Below the navigation, there are two tabs: "View Data" and "Exports", with "Exports" being the active tab. The main content area displays five rows, each representing an exported file. The first row is highlighted with a red border. Each row contains a green document icon with a white 'X', the file name, the export date and time, the filters applied (e.g., 2024, Central, Community High School), and a "Download" button. A "Load More" button is located at the bottom of the list.

File Name	Date	Filters	Action
download-survey_questions-250317-38d4-434f-8ece.xlsx	March 17, 2025 at 03:38 AM	2024, Central, Community High School	Download
download-survey_questions-250317-46dd-47dc-848c.xlsx	March 17, 2025 at 03:12 AM	None	Download
download-survey_questions-250317-bcd3-4432-9de0.xlsx	March 17, 2025 at 02:57 AM	None	Download
download-survey_questions-250311-972a-462f-a912.xlsx	March 11, 2025 at 07:14 AM	None	Download
download-survey_questions-250306-c8c4-44a0-8d0d.xlsx	March 06, 2025 at 12:49 AM	None	Download

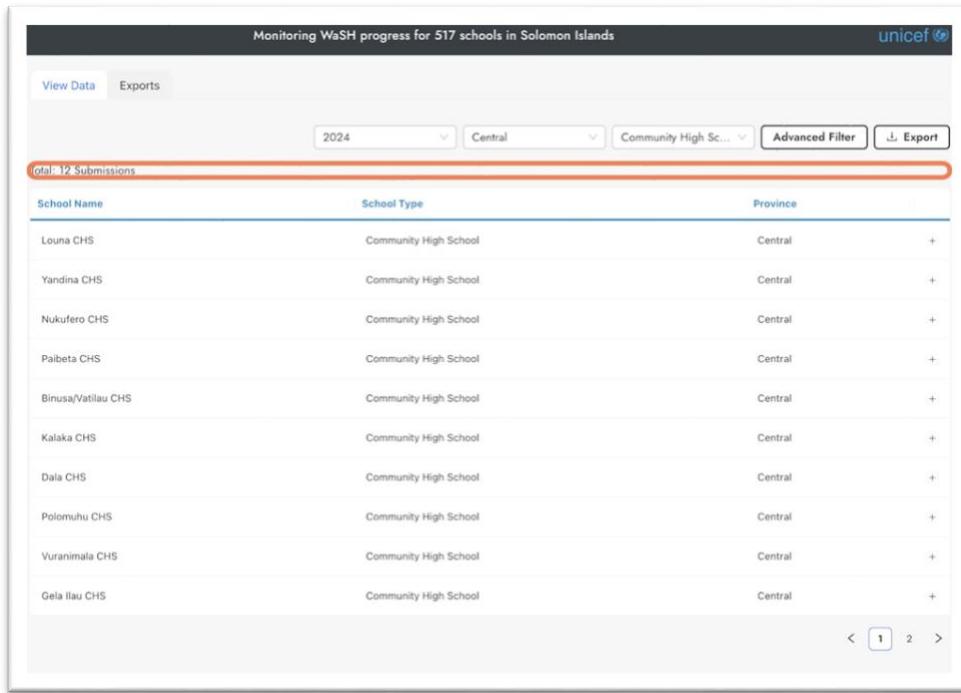

STEP 83 Click the "Download" button on the desired list to download the data in Excel format.

STEP 84 To return to the Database (Data Table) page, select the "View Data" menu from the navigation at the top left of the Export List.

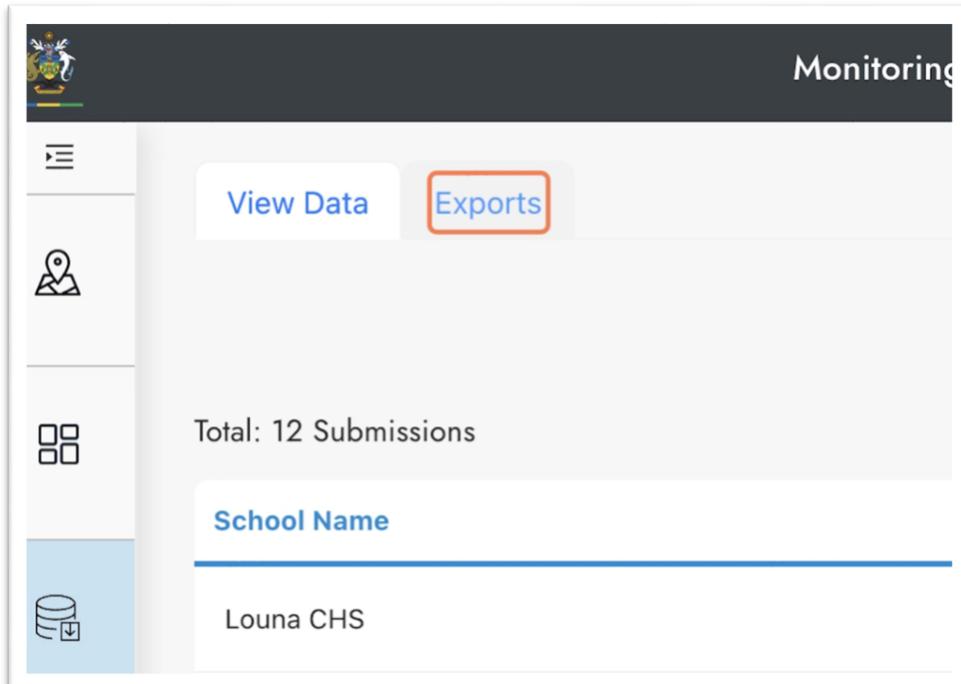

STEP 85 Then, you will be redirected back to the Database page with the table view.

The screenshot shows a web-based database interface titled "Monitoring WaSH progress for 517 schools in Solomon Islands". The top navigation bar includes the UNICEF logo. Below the title, there are tabs for "View Data" and "Exports", with "Exports" being highlighted. A search bar allows filtering by year (2024), province (Central), and school type (Community High School). Buttons for "Advanced Filter" and "Export" are also present. A red box highlights the text "Total: 12 Submissions". The main content is a table with three columns: "School Name", "School Type", and "Province". The table lists 12 schools, all categorized as "Community High School" under "School Type" and "Central" under "Province". Each row has a "+" icon at the end. At the bottom right of the table, there are navigation arrows and a page number indicator (1, 2).

School Name	School Type	Province
Louna CHS	Community High School	Central
Yandina CHS	Community High School	Central
Nukuero CHS	Community High School	Central
Paibeta CHS	Community High School	Central
Binusa/Vatilau CHS	Community High School	Central
Kalaka CHS	Community High School	Central
Dala CHS	Community High School	Central
Polomuhu CHS	Community High School	Central
Vuranimala CHS	Community High School	Central
Gela Ilau CHS	Community High School	Central

STEP 86 To display the export list page, select the "Export" menu located at the top left of the table.

The screenshot shows a simplified version of the database interface. It features a sidebar with icons for "View Data", "Exports" (which is highlighted with a red box), "Location", and "Database". The main area displays the text "Total: 12 Submissions". Below this, there is a section titled "School Name" with a single entry: "Louna CHS".

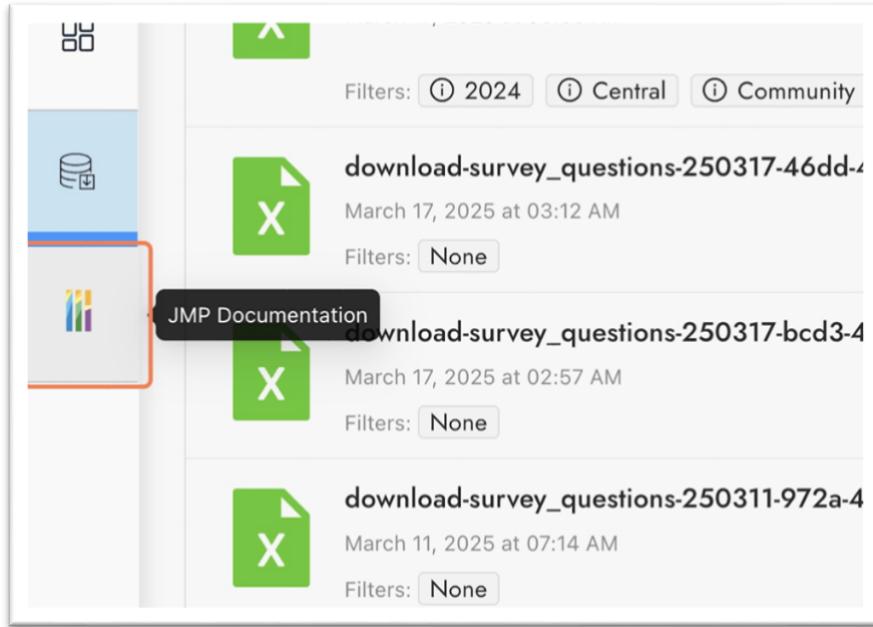

STEP 87 Then, the export list page will be displayed as shown below.

The screenshot shows a web-based application interface titled 'Exports'. At the top, there are two tabs: 'View Data' (which is selected) and 'Exports'. Below the tabs, there is a table listing five exported files:

File Name	Created On	Filters	Action
download-survey_questions-250317-38d4-434f-8ece.xlsx	March 17, 2025 at 03:38 AM	2024 Central Community High School	Download
download-survey_questions-250317-46dd-47dc-848c.xlsx	March 17, 2025 at 03:12 AM	None	Download
download-survey_questions-250317-bcd3-4432-9de0.xlsx	March 17, 2025 at 02:57 AM	None	Download
download-survey_questions-250311-972a-462f-a912.xlsx	March 11, 2025 at 07:14 AM	None	Download
download-survey_questions-250306-c8c4-44a0-8d0d.xlsx	March 06, 2025 at 12:49 AM	None	Download

At the bottom of the table, there is a 'Load More' button.

STEP 88 To display the JMP Documentation page, click on the "JMP Documentation" menu in the sidebar.

STEP 89 Then, the JMP Documentation page will be displayed in PDF format, as shown in the image.

The screenshot shows the JMP Documentation page displayed as a PDF document titled 'Monitoring WaSH progress for 517 schools in Solomon Islands'. The PDF contains several sections:

- Guidelines for computing the JMP (Joint Monitoring Program) for WASH (Water, Sanitation, and Hygiene) in Schools**
- A note: "Data required to monitor the core indicators for 'basic' service are currently scarce in many regions of the world. The first priority for global monitoring is therefore to start information on the first three rungs of the ladder, up to the 'basic' service level as guided by the 'basic' service indicator question set. However, additional information needed to assess 'advanced' service are solicited in the recommended expanded question set to support enhanced national and sub-national monitoring efforts and potentially future global monitoring." (SDG Guidelines 2014)
- Table 3: Criteria for computing SDG/JMP service levels³**
- The table is divided into three columns: DRINKING WATER, SANITATION, and HYGIENE.
- DRINKING WATER** categories:
 - Advanced service:** Additional criteria include access to at least one protected source, availability of water at all times, and accessibility to all users.
 - Basic service:** Drinking water from an improved source available at the school at the time of the survey.
 - Limited service:** Drinking water from an improved source but water not available at the school at the time of the survey.
 - No service:** Drinking water from an unimproved source or no water source at the school.
- SANITATION** categories:
 - Advanced service:** Additional criteria include access to at least one protected facility, availability of sanitation facilities at all times, and accessibility to all users.
 - Basic service:** Improved sanitation facilities available at the school that are single-use and suitable level of protection for the privacy of the user at the time of the survey.
 - Limited service:** Improved sanitation facilities at the school that are shared by multiple users and do not provide privacy at the time of the survey.
 - No service:** Unimproved sanitation facilities or no sanitation facilities at the school.
- HYGIENE** categories:
 - Advanced service:** Additional criteria include access to at least one protected facility, availability of handwashing facilities at all times, and accessibility to all users.
 - Basic service:** Handwashing facilities available at the school at the time of the survey.
 - Limited service:** Handwashing facilities with water but no soap available at the school at the time of the survey.
 - No service:** No handwashing facilities available or no water available at the school.

Notes at the bottom of the table provide definitions for 'improved' and 'unimproved' sources and facilities.
